Jörg Bräuer The Dissolution of Time 1 – Fagraskógarfall 2021

On the occasion of its 5th anniversary, Brussels gallery [Spazio Nobile](#) presents a captivating group exhibition reflecting on the interconnected relationship between earth and humans. In line with the gallery's particular approach, the participating artists and designers aren't bound by disciplines or materials, but are instead tied by a sensitivity regarding nature and minerality. Ceramic, wood and glass works intermingle with tapestries, photographs, and pastel paintings on paper. "[Threads of Nature](#)" features works by Jörg Bräuer, Nathalie Champion, Lila Farget, Bela Silva, and many others.
