Soul Memories
Fabian von Spreckelsen, Solo Show

Combining two organic materials, weathered iron and organically tanned natural leather, Fabian von Spreckelsen presents a collection of *Leather Cabinets*, each symbolising an important stage in his existence. The ritual lies in the simple gesture of lifting the leather to reveal the interior of the sculptural furniture. Combined to *Souvenirs from Space* with his new *Ferron Crystallized paintings*, the artist highlights qualities with new alloys combining steel with copper and brass in search for a new perspective in discovering the materiality and deepening the core to the crystallization.
