Finissage
3.9.2023, 12-18.00

SPAZIO
— NOBILE

Interlude, Group Exhibition

Spazio Nobile presents *Season XXV— Interlude*, a Group Exhibition highlighting new contemporary applied art works from more than 20 artists and designers of the gallery crossing collectible experimental design with fine art. Unique and limited editions works are on display at Spazio Nobile Gallery and at Spazio Nobile Studiolo across the street of the main gallery located in a 1920s building close to Brugmann Square in Ixelles district.

Interlude evokes the image of an exhibition between two seasons, an entertaining and eclectic intermission in which Spazio Nobile celebrates 7 years of existence, while drawing creative strength from the multiple sources of contemporary applied arts and design, intertwined with fine art.

This exhibition features Jörg Bräuer, Florence Coenraets, Marie Corbin, Jesper Eriksson, Foyer Brisé, Ernst Gamperl, Garnier & Linker, Kaspar Hamacher, Amy Hilton, Katherine Huskie, Åsa Jungnelius, Pao Hui Kao, Liu Chien-Kuang, Isaac Monté, Fredrik Nielsen, Bela Silva, Piet Stockmans, Kiki van Eijk, Vera Vermeersch, Fabian von Spreckelsen, Quentin Vuong & Philipp Weber.

Jörg Bräuer (DE)
Photographer

Jörg Bräuer studied at the school of Photography and Printing in Munich, and holds a Fine Arts degree from the Fashion Institute of Technology (F.I.T.), New York University. He has lived and worked in Munich, New York, London, Lisbon and Barcelona. Today, he splits his time between Brussels, in the Sablon art district, and his studio in south-west France. His artistic research is focussed on the alteration of matter by time, expressed through different means: photography, painting, sculpture and installations. Within his themes, he wraps his conceptual approach in a poetic vision of the world around us. “*The Edge of Silence*” reflects the chromatic beauty and the graphic and abstract purity of the impressive falaises in Normandy, eroding with time. With “*Conversations in Silence*”, he recreates a subtle and understated dialogue between the gardens, trees and sculptures of the Château Vaux-le-Vicomte, before their restoration, still covered with the patina of centuries. His series “*Asperity*” explores the rough, unrefined landscapes of Iceland and the connection with nature’s most

essential elements. With his photographic plates, using the unique and manual collodion techniques, it creates various series: “*Ceps, l’enracinement du temps*” (Ceps, the Rooting of Time), reveals the visible traces of time in the vineyards of Calon- Ségur; “*Aigua Xelida*” sublimes the coastal landscapes of Girona in Spain; “*The Dissolution of Time*” exposes the unique beauty of Iceland’s landscapes. The “*Monoliths*” explores a new direction in the texture of time, through sculptures engraved with poetic quotations about time. Finally, the entropic canvases of “*Terra Temporis*” stem from a same feeling of an inevitable loss of energy. Spazio Nobile has represented Jörg Bräuer since 2016. The gallery presented his solo show *Lithologie* begin 2023.

Florence Coenraets (BE)

Feather Artist

Florence Coenraets initiates intimate dialogues with our material world and interrogates our relationship to objects and by extension, to our environment. She's been exploring and working with feathers for many years, a natural medium that fascinates her greatly. Born in Eupen, Belgium, she studied at Institut d'Architecture Victor Horta, worked in various architect offices then obtained her master's degree at Sint Lukas, School of Arts, where she developed a hybrid head pieces project. She then deepened her competences in millinery where she met feathers for the first time, a medium she's embraced ever since. She followed a featherwork course at the Académie des métiers d'art in Paris which led her to develop various artistic projects based on the physical and emotional particularities of feathers. Her work has been featured internationally, she was part of the exhibition a *World of Feathers* at the Volkenkunde Museum in Leiden and the Etnografiska Museet in Stockholm. Her headpieces were presented in various shows in Brussels such as Nationa(a)l expo store, Design September, Belgium is fashion,

as well as at Designsupermarket in Prague. In 2015, Florence Coenraets received the Weekend Fashion Award in the accessories category for her "coherent, fresh and singular" work. Her headpieces were presented during the défilé Cohort at WIELS. Her participatory project mixing millinery and photography was shown at the Maison des Cultures de Saint Gilles and in the Musée Royal d'Afrique centrale in Tervuren. Raw materials and the energy that emanates from them are the point of departure of her artistic explorations. By mixing in ancestral techniques into her practice Coenraets interweaves the sacred and the contemporary into singular pieces. Florence Coenraets is represented by Spazio Nobile since 2022.

Ciel de Bruxelles

2022

100% Natural Feather Installation

Calico and non-woven interlining and feathers. Feathers of Pigeon, Wood Pigeon, Hazel Pigeon, Black Crow, Wood Magpie, Egyptian Goose, Greylag Goose, Mallard, Widow Wigeon, Collared Parakeet, Oak Jay and Woodpecker. All feathers were collected in Brussels and in the Park of Tervuren.

111,5 x 32 x 3 cm

Unique piece framed in anti-UV plexiglas

Ciel de Bruxelles, is the first piece in the «Ciel» series which, using feathers collected in a defined territory, bears witness to the different birds present in that territory.

Marie Corbin (FR)

Architect, Scenographer

Ker-Xavier is a collective of French artists and architects. Marie Corbin, the group's representative, holds an ADE and HMONP diploma in architecture from ENSA Paris-Belleville. In 2006, she began her training as a scenographer in the museum design department of the Centre Georges Pompidou in Paris. From 2008, she enriched her museographic experience in the world of contemporary art by offering her production support services to the artists Anu Pennanen and Benoît Maire, before creating her own scenographies for the BPI of the Centre Pompidou, the IMEC or on the occasion of several public contract competitions for the MAM of the city of Paris and the Grand Palais. Between 2013 and 2016, she collaborated with set designers Maciej Fiszler and Laurence Fontaine for the Fondation Louis Vuitton, the LAM, the Quai Branly, the MuCEM, the Cinémathèque, the Louvre Lens... «Ker-Xavier» is a French design label run by architect Marie Corbin (b.1983) and artist Benoît Maire (b.1978). The label was created in Paris by 5 architects in 2011 and

established itself as a company called Ker-Xavier Sarl in 2018 in Bordeaux. Between 2011 and 2015, Ker-Xavier was mainly involved in exhibition design. In 2014, Marie Corbin worked with the French-Vietnamese artist Thu Van Tran on the Marguerite Duras exhibition for the Centre Pompidou in Paris, setting up a partnership and production follow-up in order to produce the artist's installation. In 2016, Benoît Maire was asked to design the scenography of photographer Julien Carreyn's work at the Crèvecoeur gallery in Paris for the exhibition «Photographies du soir». This was the starting point for the creation of a line of furniture called «du soir». «Ker-Xavier» produces objects and furniture such as tables, chairs, stools, lamps and vases, based on an experimental workshop method; and is still involved in exhibition scenography with notably «Foncteur d'oubli» at the Plateau Fonds Régional d'Art Contemporain in Paris at the end of 2019. Spazio Nobile represents Marie Corbin since 2020.

Jesper Eriksson (SE/FI)

Artist, Designer

Jesper Eriksson is a Swedish/Finnish artist and designer based in London, interested in work related to the human, culture and material. He is interested in material that has strong influences on culture. He creates contemporary narratives to existing historical, socio-economical or cultural context. His process combines both a hands on material experimental approach with an in-depth intellectual research. He holds an MA from the Royal College of Art (Design Products). Coal is traditionally seen as a functional raw material; from being a fuel that releases carbon dioxide to a precious design object with no harmful effects on the environment. Jesper Eriksson creates furniture and other objects in solid coal. His structural investigation into coal establishes a new relation to this material as one to be cherished. In this new collection commissioned by Spazio Nobile, the investigation focuses on the duality of the material; on one side the progress the material has enabled and on the other the inevitable harm as a consequence of its use as fuel. The new series, presents itself as a poetic celebration of an undervalued material. Jesper Eriksson is represented by Spazio Nobile since 2019.

Foyer Brisé (NL)

Artists, Designers

Established in 2022, 'Foyer Brisé' is a continuation of the autonomous designs of two anonymous designers. After working as a duo for fifteen years, they will continue the study on high-crafts in downfall under the name of 'Foyer Brisé'. 'Foyer Brisé' uses brokenness as a point of departure in their work. Worthless and faulty at first glance, the labor-intensive pieces of 'Foyer Brisé' are delicate collages of personal and shared experiences as seen from the perspective of their creator. Foyer Brisé presents objects that are between remains of what they were (or refer to) and a dream of what they can become. They carry a mix of design and art references (history of Chinese porcelain, Hella Jongerius, Martin Margiela i.c.w. Inge Grognard, Dries van Noten, etc) and private memories, captured in high crafts, Borgerhout aesthetics and broken litter. They have a mix of glazes and underglazes,

nail polish, white gold leaf, isolation blanket, colour pencils, concrete mineral paint and even Mon Chéri packaging. Each carafe has the title, number, date and time of creation that Foyer Brisé has written on it.

Ernst Gamperl (DE)

Sculptor

His sculptures aren't simply turned on the lathe, they're the fruit of years of painstaking work with his preferred medium: wood. Over the past 20 years, Ernst Gamperl has studied its drying properties and their impact on the sculpture. He knows it is a give-and-take, a dialogue with the material; he can never impose a shape on it. This physical and conceptual challenge continues to spur him on. Curved edges and bulges, projections and indentations emerge out of the natural warping of the wood. They are part and parcel of the design, as are branches and irregular growth formations, and the fissures and fractures that he consciously repairs and controls. The immanent expressive power of the material and its grain, lines and colouring, its softness or hardness, its compact heaviness or paper- thin transparency, are underscored by his treatment of the surfaces: waxing and polishing, scrubbing out the streaks or carving filigree parallel grooves, contrasting smooth and shiny with rough-hewn and scarred. Pushing the boundaries of his own craftsmanship,

Gamperl was awarded the LOEWE Craft Prize in 2017, and since then has pursued a quest for even more essential and archaic forms and surfaces. His one-of-a-kind project, "Tree of Life", in which he transformed a tree into 67 beautifully wrought vessels that embody his excellence in woodturning and in experimental patinas, has been touring in Europe and in Asia (Korea) over the past two years. Spazio Nobile has represented Ernst Gamperl since 2020.

Ernst Gamperl's sculptures, hollowed out to the thinnest skin of the tree, creates an impression of a forest with unique essences, patinas and oxidations. His sculptures reveal the visible in the invisible, in reference to the Japanese culture of emptiness – "*U-Tsu-Wa*" – meaning vessel, emptiness, universe. This meditative installation unites East and West, across a universal culture of art. Here, the eye discovers the cult of the divine in nature, in which the vessels become receptacles of the soul.

Garnier & Linker (FR) Designers

Guillaume Garnier and Florent Linker are two French creators based in Paris. They aim at giving a contemporary design to rare materials and savoir-faire. All pieces are handmade unique or limited editions by French master craftsmen. As designers, they get their inspiration from decorative arts and sculpture, to create pure-shaped forms revealing their materiality. With their background in interior design, they conceive functional objects that meet contemporary interiors of enlightened collectors who seek art and design collectibles with a soul. They have created two singular collections for Spazio Nobile in Brussels, one is the Parisis lamps in plaster and alabaster and, another one is the molten glass *Diatomée* Sculpted Vases which appear like diatoms that are single-celled algae that live in houses made of glass. Inspired by these light-absorbing molecules which are the only organism on the planet with cell walls composed of transparent, opaline silica, they are ornamented by intricate and striking patterns of silica. On earth, diatoms are bringing us up to 50% of our oxygen and also feed the oceans, lakes and rivers. Garnier

& Linker have experimented this fascinating lost-wax casting technique mastered by French glass maker Olivier Fonderflick. Since 2020, Spazio Nobile has initiated artistic collaborations and projects with floral artists around *Diatomée* such as Ikebana master Jozef Preliš Seihō and Paris-based creator Arturo Arita, respectively on the exhibitions *Ikebana* at Collectible and *Call to the Wild* at Maison Louis Carré (arch Alvar Aalto) in Summer 2020 and for *Spazio Nobile at Home : Living Ikebanas* in 2022-23. Garnier & Linker are represented by Spazio Nobile since 2019.

Kaspar Hamacher (BE)
Sculptor, Artist & Designer

With a degree from the Academie Beeldende Kunsten in Maastricht, the Netherlands, Kaspar Hamacher, originally from Belgium's Eastern Cantons, takes nature as the starting point in his daily life as a sculptor and a designer of artistic furniture. Monoxyle purity blooms from sylvan beauty. Raised in woodlands by his forest ranger father, he has forged a unique and very personal path through the world of art and design, winding his way between sculpture and the contemporary applied arts. Far from the rush of our digital world, Kaspar Hamacher creates a close and unique connection with each fragment of trunk he sculpts, crafting unique stamped pieces out of his own creative energy. He resolutely focuses on the object in all its physical strength, more as a “*maker*” than a conceptual designer. His abilities with wood, as a living material, are the fruit of his energy and his imagination: whether working

with a tree stump or a piece of leather, for him it is essential to respect authenticity at every step of the creative process. In his design approach, which he has called “*Die Werkstatt*” (The Workshop) since his 2017 exhibition at Spazio Nobile, Hamacher always aims to create a piece that is both unique and personal, with a strong meaning and added soul. “*Le Sacre de la Matière*” reflects his authenticity, while “*Mother Earth*” is at the heart of his identity, the eponymous title of his solo exhibition at CID Hornu which ran from June to September 2021. Spazio Nobile represents Kaspar Hamacher since 2016.

Katherine Huskie (UK)

Artist, Glassblower

Katherine Huskie has been working with glass for over 10 years. Huskie started experimenting with glass at college and subsequently went to the University of Sunderland where she studied for a BA (Hons) in Glass and Ceramics. Huskie specialised in blown glass early on and since then it has become her passion. Glass blowing has taken Huskie all over the world including a year based in Australia where she worked with numerous different glass makers to expand and broaden her knowledge. The experience provided Huskie with the passion and determination to push her own glass designs. On returning to the UK she set up Devereux & Huskie Glassworks with James Devereux. They specialise in creating glass for designers and artists from the UK and overseas. Huskie has always been interested in pattern whether it is within nature, textiles or geometry. She is always searching for

new influences and how she can include the patterns in hot glass. Huskie was named Wimbledon Championship Artist 2018 alongside Nancy Sutcliffe. They collaborated to create 2 large scale glass works that are on display in the Clubhouse. In 2020 Huskie became a QEST scholar, she received a grant to allow her to continue learning the craft of Neon. Katherine Huskie is represented by Spazio Nobile Gallery since 2020. Huskie's work has a strong identity with form and pattern, whether it is technique or ascetic driven. Katherine Huskie is always searching for new influences and how she can incorporate the inspiration within hot glass. Huskie has travelled with her glass spending a year working in Australia learning new techniques and gathering experiences and ideas. Huskie's work is currently on view at the gallery and is part of part of The International Exhibition of Glass Kanazawa 2022 which started end October at Shinoki Cultural Complex, Ishikawa Prefecture, Japan. Katherine Huskie is represented by Spazio Nobile since 2019.

Pao Hui Kao (TW)

Artist, Designer

Pao Hui Kao studied Industrial Design at the Huaan University of Taipei. After four years working experience as a industrial designer and material researcher, she enrolled in the Master's program at the Design Academy Eindhoven where she received her Master of art in 2016. Her works shown great influences of innovated material, traditional crafts, social issue, ecorches. By making objects, sculptures and installations, her works emphasize on creating extraordinary aesthetics out of ordinary material and surrounding through continuous material experiments. The projects of Pao Hui Kao marrie the forces of nature to human artifacts. Her studio serves as ground for a constant research on experimental design, bringing higher meaning to manmade sculptural bodies and installations through their exposition to nature and its elements. This process of elaboration allows Pao Hui to

create a narrative where the natural and the artificial commune to form landscapes for the mind to explore the philosophical dilemmas that distress the human condition. Pao Hui Kao has created two collections for Spazio Nobile in 2020: *Paper Pleats* and *Lacquer Leaf*, in which she has experimented further with tracing paper, rice glue, Urushi lacquer paint and kintsugi. Spazio Nobile is representing Pao Hui Kao since 2019. Pao Hui Kao has been selected as part of the finalists for the LOEWE Craft Prize 2022. Her first Solo Show "*Twenty Five Seasons*" will be presented this upcoming Autumn at the gallery.

Liu Chien-Kuang (TW)

Artist, Glass blower

Liu Chien-Kuang born 1988 in Kaohsiung, Taiwan. As a glass designer and maker, he has been greatly influenced by many different cultures and glass-making techniques today. Since he graduated from the National Taiwan University of Education Art and Design, he had been to Japan, Denmark, Sweden, and China, to cooperate with talented glass artists and studios. His goal is to explore a new phase of glass-making, by combining old techniques with new knowledge. Also, he challenges to create novel expressions of the glass itself. Liu Chien-Kuang decided to become an independent Artist during studying at the Royal Danish Academy of Fine Arts, Bornholm design school. During his time of study in Denmark, he was interested in traditional glass-making knowledge and use them with his own cultural experience in his sculpture. He starts to focus on using material glass to create objects to reflect his

cultural background such as paper and wood, two materials that have been a part of his life since his childhood. He found the harmony to combine wood structures with blown glass objects. Liu Chien Kuang also did his practice in master's program at Konstfack, Stockholm. He strengthens his work with material culture and post-colonial theory and tries to question the position of the museum, audience, and artists in the modern society. He wins the Swedish Freemasonry art and culture scholarship after graduating from Konstfack. Currently, Liu Chien-Kuang is based in Gustavsberg, Sweden continuing his practice and experiencing Swedish culture. He likes to study historical museum glass collections to learn the forgotten technique and untold stories and reinvent his story through his material universe.

Stone from Other Mountain

The works displayed in the exhibition are made of glass in different colors used to create illusions of semi-precious stones. This type of stones, so called “*Dreamstones*”, made for example of jade, have historically been very desirable objects. They were polished and placed on small stands that were usually made of a dark wood. In Liu’s hand blown glass creations, depth is created by layering different shades of glass on top of transparent glass. He has collected the glass for several years, some of which was made even before he was born, and the connection to his past gives another dimension to the works. For each object, Liu has also designed a unique stand that was printed with a 3D printer instead of the traditional wooden stand. The intention is playful – the contrast between the different materials raises thoughts about copying and authenticity.

‘Studying historical objects makes me think about the past, reflect on my existence and look to the future. Since I moved to Sweden, people have always asked about my origins, it made me realize my limited understanding of Taiwan – the country I grew up in. On a visit to the National Museum of Taiwan History, I saw a stone ax in the collections. When I saw the shape and structure of the object, I had a strong feeling of wanting to portray it in glass, the material I master’ says Liu Chien-Kuang.

For Liu, working with glass serves as a way to learn more about a complicated outside world. He studies craft techniques from the past and seeks the unspoken stories of the objects. By reinventing the stories, he creates his own material universe.

Åsa Jungnelius (SE)

Artist, Glass blower

Born in 1975, Åsa Jungnelius lives and works in Stockholm and Månsamåla, Sweden. She has been exhibiting regularly in Sweden and internationally since the beginning of 2000 and is engaged in numerous public commissions such as the new public subway station Hagastaden in Stockholm, opening in 2026. Jungnelius' breakthrough was with her early works in glass and she has since held the position as one of Sweden's leading artists within the field. Her works are represented in the collection of Moderna Museet, Stockholm, The Swedish National Gallery to name a few as well as several prominent private collections around the world. Jungnelius' artistic practice entails a material exploration shifting between the monumental and the social and psychologically constructed settings. Through the physicality of the object she inquires how identities and bodily desires are formed and expressed. Her interest in body and matter is centered around issues concerning the constant re-negotiation of these two entities throughout human history. Spazio Nobile is representing Åsa Jungnelius since 2022. Åsa Jungnelius will have her duo show with Fredrik Nielsen at the gallery begin 2024.

Isaac Monté (NL) Designer

Isaac Monté has a fascination for unusual materials and an urge to master and manipulate these materials. He is a Belgian designer based in Rotterdam, The Netherlands. Isaac studied at art academies in Belgium, The Netherlands and Norway. His interest in product design developed at Willem de Kooning Academy in Rotterdam, where he graduated as product designer in 2013. The work of Isaac Monté has been shown in a variety of galleries and exhibitions in Belgium, The Netherlands, Italy and Germany. Isaac is lecturing and leading workshops in various institutions, from the industry (IKEA) to art academies. Monté was awarded The Threshold Price as most talented graduate in 2013, with his project “Filter Factory”. In 2014 he was awarded the Henri Winkelman Award for young creative entrepreneurs in Rotterdam. In 2015 he was announced as one of the recipients of the Bio Art and Design Awards. This award gave him the opportunity to design “The Art of Deception” in collaboration with Toby Kiers, Professor in Evolutionary Biology at the Free University in Amsterdam. Spazio Nobile represents Isaac Monté since 2019.

The Crystal series is the result of research into stalagmites, one of the greatest wonders of nature. The growing process of the objects can be seen as a metaphor for time. Each object is unique in shape, colour and texture, due to the organic development of the object. The objects are the result of the natural crystallization of minerals and the influence of the designer on the formation process. This process can take up to several weeks to obtain the perfect shape, interesting colour combinations and dimensions of crystals.

Päivi Rintaniemi (FI)

Artist, Ceramist

Päivi Rintaniemi graduated with a Master of Arts from the Aalto University in Helsinki, Finland. The varied art disciplines taught at the university enabled her to develop solid professional skills in both design and sculpture. After her studies, Rintaniemi concentrated mainly on designing and manufacturing everyday objects. She shows her Amfora creations at major international design shows. Sculpture has always been an important counterbalance for her design work. Rintaniemi's starting points for structuring her works of art are shape and dimension. Her pieces are characterised by her way of working the clay, which is also often a significant factor in the nature and narrative of her sculptures. Over the years, colour has been replaced by structured surfaces and earthy tones. Rintaniemi's artistic work is meditative, with an interaction between the material and the themes. Through her works, Rintaniemi strives to unveil her relationship with nature, and to let her audience appreciate the uniqueness and miracles of life. Päivi Rintaniemi's work has been recognised both nationally and internationally.

She received the Finnish designer award in 2008, and first prize at the International Competition of Contemporary Ceramic Art in Faenza, Italy, in 2013. She has participated in many art shows in Finland and abroad, and her works are found in Finnish national collections and museums, as well as in private collections. Spazio Nobile showed her work throughout the Finnish season "*Keep Your Garden Alive*" in 2019, and since then has represented her at art and design shows. Spazio Nobile represents Päivi Rintaniemi since 2020.

Bela Silva (PT)
Artist, Sculptor, Ceramist

Bela Silva was born in Lisbon, Portugal and studied at the Fine Arts Academy in Lisbon and Porto, Portugal, as well as at ArCo, Lisbon, Norwich Fine Arts in the UK, and The Art Institute of Chicago in the United States. She currently splits her time between Lisbon and Brussels. She has exhibited at Ann Nathan Gallery and Rhona Hoffman Gallery in Chicago, at Lisbon's Museu do Azulejo (Tile Museum), Museu Anastácio Gonçalves, Palácio da Ajuda and Fundação Ricardo Espírito Santo, as well as in various exhibitions in China and in Japan. She has participated in group shows in Belgium (Kleureyck, Designmuseum Gent, Lille 3000), Brazil, Spain, France (Biennale de Vallauris), and has run ceramics workshops in Japan and Morocco. She has been awarded residencies at Kohler, Wisconsin, USA, and at Fabrica Bordalo Pinheiro, Caldas da Rainha, Portugal. She has created several pieces of public art, including painted murals on tile for Lisbon's Alvalade subway station, and ceramic panels for Japan's Sakai Cultural Centre gardens and the João de Deus School in the Azores Islands. She created 12 large fantastical pieces in

pieces of public art, including painted murals on tile for Lisbon's Alvalade subway station, and ceramic panels for Japan's Sakai Cultural Centre gardens and the João de Deus School in the Azores Islands. She created 12 large fantastical pieces in 2017 for the gardens of the Fine Arts museum, while exhibiting her work that same year at the Museum of the Orient in Lisbon. Spazio Nobile has represented Bela Silva since 2017 and has dedicated her several exhibitions at the gallery and at international fairs worldwide, including the solo show *Despierta Corazón Dormido* in 2020 coupled with the release of her artist book, *Codex Mexico*. In 2021, Spazio Nobile launched three jewelry collections with the artist: "Mon Amour, Mexico", "Petalouda" with high-end Berlin-based fashion brand Rianna + Nina and "Four Seasons", wall sculpture jewelry to hang on the wall as 'ex-votos'. She is part with Spazio Nobile of *Next of Europe*, a selection of European "Living Treasures" curated by Jean Blanchaert & Stefano Boeri at Homo Faber, Fondazione Giorgio Cini, Venice, Italy in spring 2022. The gallery inaugurated a showcase with Bela Silva in Le Sablon Art District, in front of Les Minimes Baroque Church, which is open twice a year during B.A.S. (Brussels Art Square) in Brussels, in March and September. The gallery presented in 2022 the Duo Exhibition "*Tree of Life*" with the Belgian textile artist Vera Vermeersch. Bela Silva is represented by Spazio Nobile since 2017.

Piet Stockmans (BE)

Artist, Ceramist

Born in Leopoldsburg (Belgium) in 1940, Piet Stockmans this year celebrates the 30th anniversary of his studio. Living on the site of Genk's C-Mine, his career fluctuates between art, the applied arts and industrial design. For nearly 30 years, he taught product design at KHLim in Genk and the Design Academy Eindhoven, and collaborated with industry – notably 25 years with Royal Mosa. New ideas and experiments continue to nourish his work as an artist-ceramicist, ranging from unique or multiple pieces of applied art, to integrations of his porcelain works, to architecture. Cultural ambassador for Flanders in 1995, winner of the Henry Van de Velde Career Award (Flanders Design) in 1998, his works have been included in major exhibitions (solo or group) and have been the subject of memorable installations. Stockmans has seen his creations take their place in the largest Belgian and international collections: PMMK Oostende, Designmuseum Gent, Stedelijk Museum Amsterdam, MAD New York, Met New York, Mint Museum of Craft and Design, Musée national / Cité de la Céramique

de Sèvres, V&A London, etc. He has also led many workshops and conferences in major art and design schools, and has participated in important biennials of ceramics. Spazio Nobile represents Stockmans since 2017. “Piet Stockmans has view of the matter in his wall installation and “Example of A Landscape” on view at the gallery. He has conducted his whole career at the edge. Among his most recognizable compositions feature numerous porcelain vessels and imperfect fragments, the lips of each marked out in a wash of blue, so called “Stockmansblauw”. Despite their outward serenity, these installations can also be understood as energy fields, welling up against their own limits. The individual variations of each painterly edge suggest a barely controlled tide, a brimming chaos beneath. Over the course of his six decades in the medium, Stockmans has pursued the collision between order and turbulence, strength and fragility, following that dialectical instinct wherever it leads him. In his hands, ceramic seems not so much a terrestrial art form as an oceanic or celestial one: a domain of infinite amplitude, containing forces beyond our reckoning.” Extract by Glenn Adamson for TLmag, 2020.

Kiki van Eijk (NL)

Designer

Kiki van Eijk grew up in the Netherlands where she spent her youth immersed in nature daydreaming and drawing. She is now one of the most accomplished names in the world of Dutch design. Her interest in product design developed at the Design Academy Eindhoven where she met her future partner, designer Joost van Bleiswijk. Her wide range of work extends from installations to furniture, from lighting to textiles, ceramics or glassware. Her independent sculptural work has been presented in museums, galleries and fairs worldwide, including Basel, London, Paris, Milan, New York, Tokyo and Rome. Inspired by the smallest details of the everyday and by the forms of nature, Kiki's world is whimsical and colorful, lyrical and personal, yet refined by a rigorous attention to the process and skillful craftsmanship. Regardless of the scale of the work, the handmade and human touch remains at the heart of her practice and reinforces an intuitive and forward-thinking approach to design in the 21st century. Her collaborations include brands as Hermès, Google, Saint- Louis, Cor Unum,

Bisazza, Häagen-Dazs, Serax, Bernhardt Design and Nodus. In recent years she has collaborated with companies and institutions like Coachella, Studio Edelkoort Paris, Audax Textile Museum, Zuiderzee Museum, Noord Brabants Museum, Design Academy Eindhoven, Venice Projects, Rijksmuseum, Centraal Museum Utrecht and private collectors. Spazio Nobile presented from May 18th to September 4th, Kiki van Eijk & Joost van Bleiswijk's Duo Show « *Serendipity* ». The gallery represents Kiki van Eijk since 2021.

Textile Collage Sketch Collection by Kiki van Eijk

The designer departs from traditional textile techniques, introducing tufting for the first time aiming to be as faithful as possible to her original 'sketches' - a series of spontaneous, intuitive crayons drawings on cardboard and paper. The textile collection is made mixing wool, cotton, felt, linen, and leather. They are developed and crafted in Kiki's atelier and the Lab of the Dutch Textile Museum.

In 'Rusty Sketch' the textile elements are laboriously made with a strong eye for detail and color, custom dyed wool and hand tufted interventions are developed at the Textile lab.

'Petrol Sketch' is a contemporary piece with handmade textile relief elements. Using a big variety of materials from her personal archive of more than 20 years work, Kiki creates a unique collage where each element is meticulously stitched and colors are intentionally chosen.

In 'Spring Green Sketch' the designer takes a new outlook on traditional techniques and in a fresh and imaginative way combines hand tufted parts, developed at the Dutch Textile Museum, and handmade textile relief techniques creating an innovative 21st century collage piece.

Raku Collection by Kiki van Eijk

Raku is a Japanese low fire process that dates as far back as the 16th century. Pots are taken from the kiln while they are still red hot to be placed in a container full of materials catching fire. Kiki is rethinking this historic technique and by trial and error she is coming to contemporary design. Firing Raku in her studio garden adds another experiential layer to the process and gives her a deeper understanding about the possibilities and usage of this ancient technique. Working closely to the fire (1000 degree celsius) is a very physical act that carries on these smoked, final objects. There are so many variables within the process of Raku Firing, that each outcome is a surprise even to the artist and no object will ever look the same. Keeping alive an intuitive approach to the making, Kiki cultivates the richness of the sensory experience.

Vera Vermeersch (BE)
Textile Artist

Vera Vermeersch, tapestry weaver and artist, trained as an art historian and as tapestry restorer at IRPA (Royal Institute for Cultural Heritage), was one of the founders of the Oudenaardse Huis Lalaing, which restored old tapestries in the mid-1980s. In 1989 she opened her own studio in Ghent, Belgium, specializing in contemporary tufted tapestries for floors and walls. Vermeersch creates her own designs, but also collaborated with some other local and international artists. For example, she has transposed works by Maarten van Severen, Tjok Dessauvage, Roger Raveel, Fred Bervoets, Johan Tahon, Volker Albus, Pjeroo Roobjee and Sofie Lachaert into tufted tapestries. She also collaborated with members of her artistic family, including her sculptor father José Vermeersch, her brother Rik Vermeersch and her cousin, painter Pieter Vermeersch. At present, she exclusively conceives and makes

her own creations inspired by her travels, Italian landscapes, and details from antique tapestries and old masters. This artistic approach always implies a critical, meticulous and layered reading, interpreting and re-interpreting of the given subject to sublimate it in a composition of which she holds the secrets, the color palette, the interweaving of threads and the genius of the material. She is a master at translating the virtuosity and poetry of the original design into tapestries. Her new lyrical and intimist tapestries around *Tree of Life* inaugurate a new body of hand-tufted works, inspired by the day and night shadows and lights that she observes and that appear in the landscape of the Piedmont Valley that surrounds her countryside house, *La Palude*. The gallery presented in 2022 the Duo Exhibition «*Tree of Life*» with the Portuguese textile artist Bela Silva. Vera Vermeersch is represented by Spazio Nobile since 2021.

Fabian von Spreckelsen (DE)

Sculptor & Artist-Designer

A graduate of the Academie Beeldende Kunsten in Maastricht, the Netherlands, German-born artist Fabian von Spreckelsen is now based in the Netherlands. He cultivates a deep fascination for nature, passed down from his biologist father, who guided Fabian on the discovery of the delightful world of living organisms. This relationship and interaction between a constructed environment and unspoiled nature has steered his artistic instincts. Fabian von Spreckelsen is captivated by the links between humans and the natural elements surrounding them, and in his sculptural designs, he continuously interprets nature as a powerful force, requiring respect more than protection. The resulting strong and radical artwork draws inspiration from flora and fauna in their abstract geometries, with both strength and beauty in their simplest, sometimes abstract forms. The lines of his

work are clear-cut, producing visual effects that are simultaneously minimal and maximal. With his sculptural approach, he creates unique and bespoke pieces with a specific personality; the variety of his works reflects the diversity of nature and its connection with profound human values. He aims for a balance between arithmetical design, craftwork and artistic freedom, while always working with a respect for the environment and harmony with his surroundings. His recent monumental sculpture project, "Freddy", in Corten steel, takes him in a new, more conceptual direction, that he also translates into his new collection of seven cabinets that combine weathered iron and tanned leather, reflecting the stages of his life in a direct extension of the artwork "*The Soul Portrait*" which was show at the first edition of "*Le Sacre de la Matière*". Spazio Nobile has represented Fabian von Spreckelsen since 2017. His Solo Exhibition *Soul Memories* is on display until March 1st at Spazio Nobile Studiolo.

Leather Cabinets

Functional collectible furniture

Combining two organic materials, weathered iron and tanned leather, Fabian von Spreckelsen presents a new collection of seven cabinets, each symbolising an important stage in his existence. The ritual lies in the simple gesture of lifting the leather to reveal the interior of the furniture-sculpture. *“In life, we reach different stages; periods punctuated by experiences and discoveries. The cabinets refer to the objects of this daily, emotional and spiritual experience. They are made to connect these personal stories: the significant books, the cocktail bar, the little secrets, the keys to independence, the comfort and reassurance of loved ones, the treasures and memories, the personal diary, etc.”* These evolving, bespoke *“personal cupboards”* take the form of their object.

Quentin Vuong (FR)

Designer

Quentin Vuong is a designer-scenographer whose aesthetic approach seeks to compose with matter, texture and form in order to create emotions. He uses pure, raw and even primitive forms, which he interprets and isolates thanks to a clever play on photographic composition and drawing. His sources of inspiration are ancient architecture, medieval fortifications or Venetian Gothic and the natural landscapes that surround them. From his experience acquired at the design department of La Fabrica in Treviso, he has retained the appeal of innovative scenographies dedicated to events marking the news of luxury brands, such as Veuve Clicquot during the Salone del Mobile in 2016. As of 2018, he puts his creative flair at the service of the production agency Back of the House. Together they conceive meticulous and radical design sets for Jil Sander, Oamc, Courrèges, Tom Brown and Acne studios. His experimental quest between noble materials and artisanal techniques is always at the center of his creations. Quentin Vuong produces delicate objects and custom-

made furniture for his clients such as SÂR Studio, Please do not Enter, Ars Fabricandi or Haviland. Today, it is in his studio at Villa Belleville that he indulges himself the most by designing unique pieces, mirrors, armchairs or light reflectors. He infuses his design sensibility, his research on the expression of time in space through objects and his knowledge of materials. Quentin Vuong works and composes on a variety of projects, from scenography to fashion shows, fashion boutiques, furniture and gallery pieces. He is developing a new collection of mirrors in collaboration with Barbini Specchi Veneziani in Murano exclusively for Spazio Nobile. The gallery represents him since 2021 and will present his first Solo Show in 2024.

Philipp Weber (DE)

Designer

German creative Philipp Weber's holistic methodology melds his keen craft-led sensibility and affinity for humanism. Unaffected by the saturated trends that drive the design industry, the young designer delves deep into different subject matter. He approaches each topic from a comprehensive set of vantage points: the history and analysis of established manufacturing processes to the integration of seemingly disparate yet surprisingly appropriate associations. Graduated of Design Academy Eindhoven and University of Arts Berlin, he anchors and translates his unhurried, discursive explorations into tangible concepts and functional forms. These accessible applications push beyond the previously accepted limitations of age-old techniques and in turn, suggest ways in which to ensure their survival. It is no wonder that his chosen mediums tend to be glass, coal byproduct, cork, and textile. Though the designer frames his projects as thought-provoking referential, experimental, and expressive statement pieces, the new material properties they introduce have the most impact.

As the co-founder and creative director of Analog, a commercial venture developed through Berlin Glassworks, Weber has been able to put this unique praxis-based approach to good use. His interest in subverting traditional modes of production and research, now also incorporates a desire to explore new unconventional business models. Weber's first exhibition with Spazio Nobile was in 2017 as part of *Season IV-Crystallized*, with his experimental projects *A Strange Symphony* and *From Below* which is currently exhibited at CID-Hornu, Belgium, within the exhibition *At the Coalface, Design in a post-carbon age*, until 8 January 2023. Spazio Nobile represents Philipp Weber since 2020.

Filigree

Weber presents his vision of glass and lighting, launching a new bespoke lighting collection for the gallery, *Filigree*, with grotesque black and refined white canes. The filigrana style originated on the island of Murano in the mid-16th century and spread rapidly to other parts of Europe where the *façon de Venise* glass was produced. This project falls perfectly in line with Spazio Nobile's long-running interest in glass and its project, *Glass is Tomorrow*.

Jörg Bräuer (DE) & Fabian von Spreckelsen (DE)

In continuity of Season XXIV- *Lithologie* and *Soul Memories*, Solo Shows at the gallery and Studiolo, Capri Lithologie MMXXII's photographs and Limited Edition's Book as well as the wet plate collodions's triptych Santorin by Jörg Bräuer are placed in dialogue with *The Leather Cabinets* and *Ferron Crystallized Paintings* by Fabian von Spreckelsen.

Florence Coenraets (BE)

By mixing in ancestral techniques into her practice, Coenraets interweaves the sacred and the contemporary into singular *Feather Paintings* and *Ciel* installations made of 100% natural feathers gathered on a site-specific territory, such as *Ciel de Bruxelles* which is on display within the exhibition: a wall composition based on a collection of feathers from Brussels and Tervuren Parks.

Marie Corbin (FR)

The 6 new enameled-coated *Vase Calme* with 3rd fire gold 10% on Limoges porcelain were created by Marie Corbin for *Spazio Nobile At Home, Living Ikebanas*, past December. There are dialoguing at the gallery with *The Shelves* in solid oak by Kaspar Hamacher. Their abstract "décor" can be seen as a tribute to the antique with a sense of drama and sophistication.

Jesper Eriksson (SE/FI)

Solid coal becomes a source of creation of precious design objects such as stools, lighting and a console with no harmful effects on the environment. Eriksson investigates coal establishing a new relation to it with the *Fossilized Collection*, as one to be cherished like a noble material.

Foyer Brisé (NL)

The creations by Foyer Brisé are delicate collages of personal and shared experiences as seen from the perspective of their creator. *Sunday Morning* and *Echo*, a limited edition for Spazio Nobile, are between remains of what they were (or refer to) and a dream of what they can become. They carry a mix of design and art, art history references and reflect the ongoing contemporary ceramic research and developments done at EKWC - an international artist-in-residence and centre of excellence for ceramics (Netherlands).

Garnier & Linker (FR)

Diatomé Sculpture Vases in molten glass by Parisian duo Garnier & Linker are using the lost wax casting technique. In a collection of 20 crystal colors for Spazio Nobile, they appear like diatoms that are single-celled algae that live in houses made of glass. Inspired by these light-absorbing molecules which are the only organism on the planet with cell walls composed of transparent, opaline silica, they are ornamented by intricate and striking patterns of silica. On earth, diatoms are bringing us up to 50% of our oxygen and also feed the oceans, lakes and rivers.

Ernst Gamperl (DE)

Gamperl's turned wood sculptures, hollowed out to the thinnest skin of the tree, create an impression of a forest with unique essences, patinas and oxidations. His sculptures reveal the visible in the invisible, in reference to the Japanese culture of emptiness – "U-Tsu-Wa" – meaning vessel, emptiness, universe. This meditative installation unites East and West, across a universal culture of art. The eye discovers the cult of the divine in nature, in which the vessels become receptacles of the soul.

Kaspar Hamacher (BE)

Sculptor and designer of artistic furniture *Ausgebrannt, Inner Ausgebrannt, Max Chairs, Der Stein Black or Natural, The Shelves, The Burnt Chiseled Bench...*, Hamacher works with wood as a living material. His creations are the fruit of his energy and his imagination: while working with collected tree stumps, for him it is essential to respect authenticity at every step of the creative process. Monoxyle purity blooms from sylvan beauty.

Katherine Huskie (UK)

The Echinus and Ostreum Collections are coming from Huskie's love of manipulating hot glass and the tactile qualities of it. They are respectively inspired by sea urchin and mussel shells. Each handblown glass piece is unique and every piece of glass applied on the surface is squeezed individually. They all have their own visual tactility. Adding texture to blown forms is also present in the Cassito Collection in which Huskie has changed the perception of decorating a form by adding it to the inside of the vessel.

Pao Hui Kao (TW)

Pao Hui Kao has created two collections for Spazio Nobile since 2020, in which she has experimented further with tracing paper, rice glue, Urushi lacquer paint and kintsugi. Her first Solo Show "25 Seasons" will be presented this upcoming Autumn 2023 at the gallery. *Paper Pleats Original & Urushi and Urushi Lacquer Leaf*, are two collections resulting from this long phase of experimentation to which rice glue and Urushi lacquer have also been added. Her artistic processes are both rudimentary and sophisticated, going back centuries. Finalist of the LOEWE Craft Prize 2022, Pao works with materials that have been used for a very long time, innovating within what exists and pushing the limits towards a more contemporary culture of the object.

Liu Chien-Kuang (TW)

Kuang challenges to create novel expressions of the glass itself as artist and glass blower. His *Stone from Other Mountain* recently exhibited at the Form Design Center in Malmö, Sweden, is now on display at Spazio Nobile. The selected 10 works made of glass in different colors are used to create illusions of semi-precious stones. This type of stones so called "Dreamstones", for example made of jade, have historically been very desirable objects. They were polished and placed on small stands to become contemplative objects. For each of them, Kuang has also designed a unique stand that was 3D printed instead of the traditional wooden stand. Two other works as well as one of the Stone from Other Mountain are also challenging the Murano Filigrana and Reticello glass techniques.

Åsa Jungnelius (SE)

Jungnelius' artistic practice entails a material exploration shifting between the monumental and the social and psychologically constructed settings. Through the physicality of the object such as Implements, Queen Helmets and her sculptural candle holders, she inquires how identities and bodily desires are formed and expressed. Her interest in body and matter is centered around issues concerning the constant re-negotiation of these two entities throughout human history. Åsa Jungnelius will have her duo show with Fredrik Nielsen at the gallery begin 2024.

Isaac Monté (NL)

Monté's Crystal series is the result of research into stalagmites, one of the greatest wonders of nature. The growing process of the objects can be seen as a metaphor for time. His *Crystallized* vessels are unique in shape, colour and texture, due to their organic development. They are the result of the natural crystallization of minerals and the influence of the designer on the formation process which can take up

process which can take up to several weeks to obtain the perfect shape, colour combination and dimension of crystals

Bela Silva (PT)

Bela Silva brings a contemporary Baroque aesthetic to her unique exuberant and narrative ceramic sculptures. Drawing on an eclectic range of influences from her travels, art history and archaeology, she adorns her vessels and creations with bold organic forms, bizarre animals or solidly robust interpretations of classical decorative motifs. Two new ceramic sculptures are on display at the gallery: *Sens-tu que je suis là? et Une bouche pleine de baisers*. With writhing plant-like forms, Silva has created a number of public art projects, notably her surreal and joyful murals for the Alvalade metro station in Lisbon and major exhibitions in her city of origin as well as in Paris and Brussels... She also creates vibrant works on paper and paintings such as Bruxelles ink on paper which highlights her endless line and inner fantasy world.

Piet Stockmans (BE)

Stockmans has view of the matter in his oval Example of A Landscape on view at the gallery. “He has conducted his whole career at the edge. Among his most recognizable compositions feature numerous porcelain vessels and imperfect fragments, the lips of each marked out in a wash of blue, so called “Stockmansblauw”. Despite their outward serenity, these installations can also be understood as energy fields, welling up against their own limits. The individual variations of each painterly edge suggest a barely controlled tide, a brimming chaos beneath. Over the course of his six decades in the medium, Stockmans has pursued the collision between order and turbulence, strength and fragility, following that dialectical instinct wherever it leads him. In his hands, ceramic seems not so much a terrestrial art form as an oceanic or celestial one: a domain of infinite

amplitude, containing forces beyond our reckoning.” Extract by Glenn Adamson for TLMag, 2020.

Jacqueline Surdell (US)

Building her tridimensional tapestries as wall sculptures made of ropes and nylon demands full body action as the body becomes a weaving shuttle and the hand a brushstroke. Although her material is fibre, Surdell’s approach is painterly. Mist of Lavender commissioned by the gallery is a pure expression of her interwoven landscapes. She manipulates her medium with knotted layers, reducing the material to open the structure, and draping to create volume and texture. Surdell combines the meticulous precision of craft with the unbridled spontaneity of contemporary painting. Her work embodies a tactile physicality, a suggestion of time and labour in its intricate process of creation. It offers structure, but one that is not easy to make sense of upon first glance. The U.S. artist draws upon her background as an athlete and painter to create large-scale textile pieces that twist and expand beyond the confines of the frame. Within these knots lie allusions to the subjects of each piece, left for the viewer to connect and unravel.

Kiki van Eijk (NL)

The designer departs from traditional textile techniques in her new Textile Collage Sketch Tapestries, introducing tufting for the first time aiming to be as faithful as possible to her original sketches, a series of spontaneous, intuitive crayons drawings on cardboard and paper. The textile collection is a mix media of wool, cotton, felt, linen, and leather. Developed and crafted in Kiki’s atelier and the TextielLab in Tilburg (Netherlands), both tapestries shown at the gallery, Rusty Sketch and Petrol Sketch, are made based on a variety

of materials from her personal archive of more than 20 years of work. Kiki creates a unique collage with where each element is meticulously stitched and colors are intentionally chosen. The gallery presents in parallel a selection of her Wall Story Collection of mirrors already revealed at Lempertz in 2021 and her new Raku Vases Collection exhibited earlier at Spazio Nobile At Home, Living Ikebanas end 2022. Spazio Nobile curates a Duo Show of Kiki van Eijk & Joost van Bleiswijk, A Forest of Collision and Raku, at Masterly, Palazzo Giureconsulti, during Milan Design Week (17-23.4.2023).

Vera Vermeersch (BE)

Vermeersch is a master at translating the virtuosity and poetry of the original design starting with sketches and watercolors into tapestries. Her lyrical and intimist tapestries *L'odore del sole, le voci lontane* and *'bozzetti', Il gioco dell'ombra e del sole*, inaugurate a new body of hand tufted works, inspired by the light and shadows and rays of the sun that she observes and that appear in the landscape of the Piedmont Valley that surrounds her countryside house, La Palude. Her artistic approach always implies a critical, meticulous and layered reading, interpreting and re-interpreting of the given subject to sublimate it in a composition of which she holds the secrets, the color palette, the interweaving of threads and the genius of the material.

Quentin Vuong (FR)

Vuong's experimental quest between noble materials and artisanal techniques is always at the center of his creations. He creates delicate objects such as the *Mercure* mirrors. The fine resin lacquer surface of the *Mercure* mirrors is hand-gilded with caplain leaf (an alloy of platinum, palladium and gold). The quality of their delicately disturbed and curved reflection draws the eye into a mixture of images and luminous tones. A balance between the functionality of the object and its poetic dimension created by the light through

time. The mirror is no longer a simple image of space, but a changing painting that evolves with it over time. Vuong has developed more recently *The Votive Stools for Spazio Nobile*. The gallery represents him since 2021 and will present his first Solo Show in 2024.

Philipp Weber (DE)

Weber anchors and translates his unhurried, discursive explorations into tangible concepts and functional forms. He pushes beyond the previously accepted limitations of age-old techniques and in turn, suggest ways in which to ensure their survival. It is no wonder that one of his chosen media tends to be glass. Spazio Nobile has developed with him *Filigree* lighting collection revisiting the aesthetic of the 16th century Venetian technique of the *Filigrana*. Parallel to this collection, *Sublimation* and *On Colours* hand blown glass creations as well as the *OI* table in handmade laminated glass are beautifying the gesture and choreography of glass art.

Info

Season XXV *Interlude*, Group Show

Jörg Bräuer, Florence Coenraets, Marie Corbin, Jesper Eriksson, Foyer Brisé, Ernst Gamperl, Garnier & Linker, Kaspar Hamacher, Katherine Huskie, Åsa Jungnelius, Pao Hui Kao, Liu Chien-Kuang, Isaac Monté, Bela Silva, Piet Stockmans, Kiki van Eijk, Vera Vermeersch, Fabian von Spreckelsen, Quentin Vuong & Philipp Weber

By opening Spazio Nobile in 2016 in the very lively and cosmopolitan neighbourhood of Place Brugmann in Brussels, art historians Lise Coirier and Gian Giuseppe Simeone have united their passions for design and art history, initiating an erudite dialogue between contemporary applied arts, design and photography. With no boundaries between disciplines, the visual arts interact with the fine arts. Commissioning a collection of unique pieces, limited editions and installations both experimental and artistic, with a particular sensitivity to everything related to nature and minerality, each year the gallery organises five exhibitions and several events in art and heritage venues (Maison Louis Carré, Yvelines, France, arch. Alvar Aalto; Ancienne Nonciature, Grand Sablon; Lempertz (former galerie Leroy Frères), Brussels, etc), including *Spazio Nobile At Home* in their private villa in Tervuren. Spazio Nobile also takes part in Belgian and international fairs such as Art Brussels, Luxembourg Art Week, Art on Paper, Collectible Design Fair, Nomad Circle, PAD Paris and PAD London, Design Miami/Basel, Unique Design Shanghai, etc. The gallery represents around 30 emerging and renowned artists and designers on an international scale, while promoting high-end craftsmanship and the cultural dialogue between East and West. Spazio Nobile also curates “*TLmag. True Living of Art & Design*”, established by Lise Coirier in 2008; through this bi-annual art and design magazine, available in print and online, the gallery shares its selection and its artistic and cultural commitment to collectible art and design. Spazio Nobile has received the *Homo Faber* label of excellence, and continues exploring its *Glass is Tomorrow* international project. In 2020, Spazio Nobile Gallery opened *Spazio Nobile Studiolo*, a permanent exhibition space, across the street of the main gallery which is located at the ‘bel étage’ of a 1920s house.
