The Dragon Eye

The Lunar New Year Group Show

Lise Coirier & Gian Giuseppe Simeone are pleased to invite you in their private house to discover an installation of Sogetsu ikebanas created by Japanese artist Yuka Isono in a selection of sculptural vases made by the artists and designers of the gallery such as François Azambourg, Foyer Brisé, Marie Corbin, Garnier & Linker, Katherine Huskie, Isaac Monté, Bela Silva, Piet Stockmans, Kiki van Eijk and Philipp Weber. These flower art arrangements and performances dialogue with collectible furniture, objects and works of art from the gallery.

SPAZIO
— NOBILE

A celebration of The Lunar New Year by Yuka Isono, Sogetsu Ikebanist. The Sogetsu school was founded in 1927 by Sofu Teshigawara and showed great creativity inspired by the Meiji era and interaction with Western countries. A century later, Sogetsu ikebana, which means “the school of plants and the moon“, continues to brighten up our contemporary lives with its emphasis on line, mass and colour.

François Azambourg (FR) Designer

François Azambourg explores the expressive potential of shaping materials and production processes, regardless of whether they are industrial or handmade, innovative or traditional. After training in electrical engineering in high school, he went on to study fine arts at the École nationale supérieure des Beaux-Arts (National Fine Arts grand school), and then applied arts at ENSAAMA – Olivier de Serres (National School for Applied Arts and Crafts), in Paris. With a technical and artistic education, François Azambourg's work is driven by research, an alliance between art and techniques, and a consideration for resources and streamlined design. His drawings are influenced by fabrication processes and the nature of the materials in use. While his production mainly focuses on designing furniture and lighting, François Azambourg also does scenography and theatre sets, and interior design for municipalities, hotels and individuals. Azambourg was a Laureate of the Villa Kujoyama in 2015, a recipient of the Grand Prix du Design de Paris in 2004, the Villa Médicis in 2003, the Prix de la Vocation of the

Marcel Bleustein-Blanchet Foundation in 1993, the Fondation de France in 1988 and the Museum of Decorative Arts competition in 1985. The VIA has given him support through five project assistance grants, one Carte Blanche in 2005 and several Labels. His work has been exhibited several times, including at the Festhalle Frankfurt, Salone del Mobile in Milan, Maison & Objet, Paris Design Week D'Days, MAD - Musée des Arts Décoratifs de Paris, Villa Noailles, Palais de Tokyo and MNAM – Centre Pompidou (National Museum of Modern Art). Some of his work is included in the collections of the FNAC (French National Fund for Contemporary Art), the Centre Pompidou, and the Musée des Arts Décoratif de Paris. François Azambourg has taught design for 20 years in several Parisian design schools such as École Boulle, École Camondo, and since 2003, ENSCI – Les Ateliers, the French national higher school of design, an interdisciplinary school for industrial design. Spazio Nobile presented in 2021 his first Solo Show *The Glass Pine : Blowing with nature* and represents him since 2019.

Foyer Brisé (NL)

Artists, Designers

Established in 2022, 'Foyer Brisé' is a continuation of the autonomous designs of two anonymous designers. After working as a duo for fifteen years, they will continue the study on high-crafts in downfall under the name of 'Foyer Brisé'. 'Foyer Brisé' uses brokenness as a point of departure in their work. Worthless and faulty at first glance, the labor-intensive pieces of 'Foyer Brisé' are delicate collages of personal and shared experiences as seen from the perspective of their creator. Launched during Collectible Design Fair in May 2022, Foyer Brisé presents objects that are between remains of what they were (or refer to) and a dream of what they can become. They carry a mix of design and art references (history of Chinese porcelain, Hella Jongerius, Martin Margiela i.c.w. Inge Grognard, Dries van Noten, etc) and private memories, captured in high crafts, Borgerhout aesthetics and broken litter. They have a mix of glazes and underglazes,

nail polish, white gold leaf, isolation blanket, colour pencils, concrete mineral paint and even Mon Chéri packaging. Each carafe has the title, number, date and time of creation that Foyer Brisé has written on it. Foyer Brisé is represented by Spazio Nobile since 2022.

The creations of Foyer Brisé are delicate collages of personal and shared experiences, seen from the point of view of their creator. *Echo*, a new series of unique pieces in a random edition for Spazio Nobile, lies between the remnants of what they were or what they refer to... and the dream of what they could become. These porcelain vessels contain a mix and match of art and design references (history of Chinese porcelain, Hella Jongerius, Martin Margiela i.c.w. Inge Grognaard, Dries van Noten, etc.) and private memories, captured in the craftsmanship, Borgerhout aesthetic and salvage of broken pieces. There is layers of enamels and under-glazes, nail varnish, silver leaf, insulation blankets, coloured pencils, mineral paint...

Jörg Bräuer (DE)
Photographer

Jörg Bräuer studied at the school of Photography and Printing in Munich, and holds a Fine Arts degree from the Fashion Institute of Technology (F.I.T.), New York University. He has lived and worked in Munich, New York, London, Lisbon and Barcelona. Today, he splits his time between Brussels, in the Sablon art district, and his studio in south-west France. His artistic research is focussed on the alteration of matter by time, expressed through different means: photography, painting, sculpture and installations. Within his themes, he wraps his conceptual approach in a poetic vision of the world around us. “*The Edge of Silence*” reflects the chromatic beauty and the graphic and abstract purity of the impressive falaises in Normandy, eroding with time. With “*Conversations in Silence*”, he recreates a subtle and understated dialogue between the gardens, trees and sculptures of the Château Vaux-le-Vicomte, before their restoration, still covered with the patina of centuries. His series “*Asperity*” explores the rough, unrefined landscapes of Iceland and the connection with nature’s most

essential elements. With his photographic plates, using the unique and manual collodion techniques, it creates various series: “*Ceps, l’enracinement du temps*” (Ceps, the Rooting of Time), reveals the visible traces of time in the vineyards of Calon- Ségur; “*Aigua Xelida*” sublimes the coastal landscapes of Girona in Spain; “*The Dissolution of Time*” exposes the unique beauty of Iceland’s landscapes. The “*Monoliths*” explores a new direction in the texture of time, through sculptures engraved with poetic quotations about time. Finally, the entropic canvases of “*Terra Temporis*” stem from a same feeling of an inevitable loss of energy. Spazio Nobile has represented Jörg Bräuer since 2016. The gallery presented his solo show *Lithologie* begin 2023.

Alexandre Chary
Architect, Designer

In the mid 1990s, Alexandre started his professional journey when globalization was still at an early stage. With this evolution he realized that our generation had access to a new universe of information, that we could change country, jobs, style, lives by a simple click. We entered what he called the « remote control society ». It gave him sense of curiosity and adventure, the means to explore his dreams but it also raised a big question. How do you keep consumers happy in a world so full of new temptations? How do you make sure they come back to you? In 1999, his answer to this question and he founded Prometheus Light & Glass, a company dedicated to creating custom made lighting fixtures for hotels, casinos, and restaurants around the globe. The concept was to craft unique lamps and chandeliers for each project because each customer has his own identity and wants to feel exclusive. Through these years he worked with world-renowned talents (Jacques Garcia, Sybille de Margerie, Patrick Jouin, Sir Terence Conran...)

who gave him the opportunity to develop his creative vision on Landmark projects and pushed him toward expending his design range into furniture and interior design. Today he spends his time between France and China in order to fulfil his vision of a new approach in design. He is collaborating with various design groups, artists and craftsmen on both sides of the world and has started to work on bespoke collections for Spazio Nobile.

Marie Corbin (FR)

Architect, Scenographer

Ker-Xavier is a collective of French artists and architects. Marie Corbin, the group's representative, holds an ADE and HMONP diploma in architecture from ENSA Paris-Belleville. In 2006, she began her training as a scenographer in the museum design department of the Centre Georges Pompidou in Paris. From 2008, she enriched her museographic experience in the world of contemporary art by offering her production support services to the artists Anu Pennanen and Benoît Maire, before creating her own scenographies for the BPI of the Centre Pompidou, the IMEC or on the occasion of several public contract competitions for the MAM of the city of Paris and the Grand Palais. Between 2013 and 2016, she collaborated with set designers Maciej Fiszer and Laurence Fontaine for the Fondation Louis Vuitton, the LAM, the Quai Branly, the MuCEM, the Cinémathèque, the Louvre Lens... «Ker-Xavier» is a French design label run by architect Marie Corbin (b.1983) and artist Benoît Maire (b.1978). The label was created in Paris by 5 architects in 2011 and

established itself as a company called Ker-Xavier Sarl in 2018 in Bordeaux. Between 2011 and 2015, Ker-Xavier was mainly involved in exhibition design. In 2014, Marie Corbin worked with the French-Vietnamese artist Thu Van Tran on the Marguerite Duras exhibition for the Centre Pompidou in Paris, setting up a partnership and production follow-up in order to produce the artist's installation. In 2016, Benoît Maire was asked to design the scenography of photographer Julien Carreyn's work at the Crèvecoeur gallery in Paris for the exhibition «Photographies du soir». This was the starting point for the creation of a line of furniture called «du soir». «Ker-Xavier» produces objects and furniture such as tables, chairs, stools, lamps and vases, based on an experimental workshop method; and is still involved in exhibition scenography with notably «Foncteur d'oubli» at the Plateau Fonds Régional d'Art Contemporain in Paris at the end of 2019. Spazio Nobile represents Marie Corbin since 2020.

Josef Divín (CZE)

Artist

Josef Divín was born in 1982 in the Moravian town of Valašské Meziříčí. He graduated at the city's High School of Applied Arts and Glassmaking and continued his studies at the Academy of Applied Arts in Prague, where he attended Vladimír Kopecký's and Vladimír Vančát's studios. The work of Josef Divín is often located on the border, balancing between two opposing poles: glass paintings alternate with objects from hand blown glass; there is the oscillation between the cold nature of metal and the heat of hot glass. The names Divín attaches to his glass objects are mostly simple: Vessels.

Jesper Eriksson (SE/FI)

Artist, Designer

Jesper Eriksson is a Swedish/Finnish artist and designer based in London, interested in work related to the human, culture and material. He is interested in material that has strong influences on culture. He creates contemporary narratives to existing historical, socio-economical or cultural context. His process combines both a hands on material experimental approach with an in-depth intellectual research. He holds an MA from the Royal College of Art (Design Products). Coal is traditionally seen as a functional raw material; from being a fuel that releases carbon dioxide to a precious design object with no harmful effects on the environment. Jesper Eriksson creates furniture and other objects in solid coal. His structural investigation into coal establishes a new relation to this material as one to be cherished. In this new collection commissioned by Spazio Nobile, the investigation focuses on the duality of the material; on one side the progress the material has enabled and on the other the inevitable harm as a consequence of its use as fuel. The new series, presents itself as a poetic celebration of an undervalued material. Jesper Eriksson is represented by Spazio Nobile since 2019.

Lila Farget (FR)
Sculptor, Designer

Lila Farget studied sculpture at La Cambre Visual Arts, in the studio of Félix Roulin, and recently set up her studio in the Ateliers de Zaventem. Sculpture is a material in action, and molten glass is Farget's language, giving a physical reality to her thoughts in order to recreate an emotion. The idea of construction is at the centre of her work: to build her sculptures like a vertical building with a succession of assembled layers, superimposed to create volume, form, colored or not, that she sometimes multiplies and with which she plays to propose a physical experience in space. The house, the arches, the columns, the connections participate in the foundations of her sculptures. Architecture has become her means of expression, her glass sculptures translate an idea, a symbol, a utopia ... This language allows her to evoke the openings, the doors which can make accessible, or not, to spaces linking inside and outside. A door is not an obligatory passage, only a direction, a suggested choice that one decides or not to take. The foundation myth acts on memory, on mental

activity and allows us to remember and keep track of the lived experience. Like a staging, a set of slices that are stacked one on top of the other or one after the other, these layers of glass resemble geological rock strata, evoking the successive stages of the construction of a life, hanging by a thread, reflecting our fragile biotope. Spazio Nobile is representing Lila Farget since 2020.

Vincent Fournier (FR)

Artist, Photographer

Vincent Fournier was born in 1970 and lives in Paris. After graduating with a sociology degree and a Masters in Visual Arts, he obtained a diploma from the National School of Photography in Arles in 1997. His works are regularly exhibited in international galleries and institutions, such as Les Rencontres d'Arles, Mori Art Museum (Tokyo), Musée des Arts Décoratifs of Paris, Fondation EDF in Paris, Centre d'Art Contemporain in Pontmain (France), Architekturforum Aedes in Berlin, Z33 House for Contemporary Art in Genk (Belgium), Netherlands Architecture Institute, Rotterdam, Centre de la Photographie in Geneva, Quai 1 Vevey in Switzerland, Diesel Gallery in Tokyo, 798 Space in Beijing. His pictures can also be found in public and private art collections such as the Metropolitan Museum, permanent collection (New York) LVMH Contemporary Art Collection in Paris, MAST Fondation in Bologna (Italy), The Schlumberger-Primat Collection, The Baccarat Art Collection in New York. Vincent Fournier has already collaborated with several brands for specific projects :

Baccarat, the Synthetic Flesh Flowers, for the new Baccarat Hotel in New York with the designers Gilles&Boissier, Diesel for the ISETAN Department Store in Tokyo with the Archeology of the Future project, Columbia Picture in the movie Spiderman 2 with Post Natural History, Le Bon Marché Department Store in Paris for the Brasilia series. For its first exhibition, Piano Nobile hosts "Post Natural History", presented in the format of a contemporary cabinet of curiosities. The showcase runs through a large universe, linking photography with 3D application. The result of a great attention to contradictions and the imponderable, Fournier's works are poetic and meticulous, freely nurtured by cinematographic and literary inspirations. Fascinated by science, architecture, technology and its mysteries, his installations explore all fictional potential. Post Natural History recounts the story of a voyage through time and projects a near and imaginary future. A subtitled "archaeology of the future", this exhibition mixes history and anticipation, memory and science fiction. It reveals a collection of creatures that are "beginning to appear", imagined through synthetic and cybernetic biology. Composed of three declinations around the possible transformation of the living world, the exhibition questions the relationships of man with nature and with technology, and emphasises the futility of vanity. The presentation, with "scientific" explanations accompanying images, paradoxically reinforces reality as well as fiction. Spazio Nobile presents his Solo Show *Super Specimens* in 2023 in parallel to his Solo Exhibition at Musée de la Chasse et de la Nature in Paris. The gallery represents Vincent Fournier since 2016.

Ernst Gamperl (DE)

Sculptor

His sculptures aren't simply turned on the lathe, they're the fruit of years of painstaking work with his preferred medium: wood. Over the past 20 years, Ernst Gamperl has studied its drying properties and their impact on the sculpture. He knows it is a give-and-take, a dialogue with the material; he can never impose a shape on it. This physical and conceptual challenge continues to spur him on. Curved edges and bulges, projections and indentations emerge out of the natural warping of the wood. They are part and parcel of the design, as are branches and irregular growth formations, and the fissures and fractures that he consciously repairs and controls. The immanent expressive power of the material and its grain, lines and colouring, its softness or hardness, its compact heaviness or paper- thin transparency, are underscored by his treatment of the surfaces: waxing and polishing, scrubbing out the streaks or carving filigree parallel grooves, contrasting smooth and shiny with rough-hewn and scarred. Pushing the boundaries of his own craftsmanship,

Gamperl was awarded the LOEWE Craft Prize in 2017, and since then has pursued a quest for even more essential and archaic forms and surfaces. His one-of-a-kind project, "Tree of Life", in which he transformed a tree into 67 beautifully wrought vessels that embody his excellence in woodturning and in experimental patinas, has been touring in Europe and in Asia (Korea) over the past two years. Spazio Nobile has represented Ernst Gamperl since 2020.

The turned wood sculptures of the German artist Gamperl, carved down to the finest skin of the tree, give the impression of a forest with unique species, patinas and oxidations. With a strong visual and tactile presence, they reveal the visible in the invisible, in reference to the Japanese culture of emptiness - "U-Tsu-Wa" - which means container, void, universe. Opening up a meditative culture that unites East and West, Ernst Gamperl reaches the level of a universal culture of art. The eye discovers the cult of the divine in nature, where containers become the receptacles of the soul.

Éva Garcia (FR)
Artist

Éva Garcia was born in 1980 in the Dordogne; she lives and works in Paris. In 2010 she joined the engraving workshop of Paris Atelier, under the direction of Mireille Baltar. In 2013 she was awarded the Graver Maintenant prize. In 2014 she joined the Bo Halbirk workshop. 2019 marks a turning point in her artistic career with her first solo show at the Schumm-Braustein gallery in Paris. In 2020, the Académie des Beaux-Arts awarded her the Prix Frédéric et Jean de Vernon, in printmaking. Éva Garcia's practice is mainly centred on engraving, of which she uses all the techniques, including sugar, burin, point, and cradle, gradually favouring direct engraving. She offers us visions that are both ethereal and tangible, impressions of an experimental nature. What interests her is the image, which in its very essence is multiple, evolving from its inscription to its inevitable dispersion. Although she begins her work by incising a matrix, the artist plays with the principle of the print and its identical multiplication, by intervening on the print itself

or by working on the printing supports. It is not a question of variations in series but of repeated, transposed, multiple writings, operating a transfer of language. Through these games, these experiments, these interpenetrations of gestures, techniques and materials, through the formats which impose a physical investment of the whole body, the confrontation with the material is at the same time rough, harsh but also subtle. It is not surprising that the artist now opens her practice to painting and sculpture, always remaining at the crossroads of engraving, in a relationship of circularity. Spazio Nobile presented Éva Garcia's first Solo Show «*Cette lumière peut-elle*» in 2022. The gallery represents her since then.

Garnier & Linker (FR) Designers

Guillaume Garnier and Florent Linker are two French creators based in Paris. They aim at giving a contemporary design to rare materials and savoir-faire. All pieces are handmade unique or limited editions by French master craftsmen. As designers, they get their inspiration from decorative arts and sculpture, to create pure-shaped forms revealing their materiality. With their background in interior design, they conceive functional objects that meet contemporary interiors of enlightened collectors who seek art and design collectibles with a soul. They have created two singular collections for Spazio Nobile in Brussels, one is the Parisis lamps in plaster and alabaster and, another one is the molten glass *Diatomée* Sculpted Vases which appear like diatoms that are single-celled algae that live in houses made of glass. Inspired by these light-absorbing molecules which are the only organism on the planet with cell walls composed of transparent, opaline silica, they are ornamented by intricate and striking patterns of silica. On earth, diatoms are bringing us up to 50% of our oxygen and also feed the oceans, lakes and rivers. Garnier

& Linker have experimented this fascinating lost-wax casting technique mastered by French glass maker Olivier Fonderflick. Since 2020, Spazio Nobile has initiated artistic collaborations and projects with floral artists around *Diatomée* such as Ikebana master Jozef Preliš Seihō and Paris-based creator Arturo Arita, respectively on the exhibitions *Ikebana* at Collectible and *Call to the Wild* at Maison Louis Carré (arch Alvar Aalto) in Summer 2020 and for *Spazio Nobile at Home : Living Ikebanas* in 2022-23. Garnier & Linker are represented by Spazio Nobile since 2019.

Kaspar Hamacher (BE)
Sculptor, Artist & Designer

With a degree from the Academie Beeldende Kunsten in Maastricht, the Netherlands, Kaspar Hamacher, originally from Belgium's Eastern Cantons, takes nature as the starting point in his daily life as a sculptor and a designer of artistic furniture. Monoxyle purity blooms from sylvan beauty. Raised in woodlands by his forest ranger father, he has forged a unique and very personal path through the world of art and design, winding his way between sculpture and the contemporary applied arts. Far from the rush of our digital world, Kaspar Hamacher creates a close and unique connection with each fragment of trunk he sculpts, crafting unique stamped pieces out of his own creative energy. He resolutely focuses on the object in all its physical strength, more as a “*maker*” than a conceptual designer. His abilities with wood, as a living material, are the fruit of his energy and his imagination: whether working

with a tree stump or a piece of leather, for him it is essential to respect authenticity at every step of the creative process. In his design approach, which he has called “*Die Werkstatt*” (The Workshop) since his 2017 exhibition at Spazio Nobile, Hamacher always aims to create a piece that is both unique and personal, with a strong meaning and added soul. “*Le Sacre de la Matière*” reflects his authenticity, while “*Mother Earth*” is at the heart of his identity, the eponymous title of his solo exhibition at CID Hornu which ran from June to September 2021. Spazio Nobile represents Kaspar Hamacher since 2016.

Lisa Hellrup (SE)

Artist, Ceramist

Lisa Hellrup works from her studio in the heart of Dalecarlia, Leksand, Sweden. Materials from her garden are essential as the cycle of nature is the core of her work. The power of a small seed, the desire to become more, to follow a form, to see something grow, the striving towards the light. But to then finally give in when the power wears off and fall down and die. Back in the darkness of the soil, at rest to nourish and let something new take place. This is how she lets her own work develop. A form that is critically examined to give life to a new form. Gather strength to start over, looking back at what could be done differently. She sketches directly in the clay. Emotions affect her process. Her eyes and hands build organic forms - a powerful dialogue between light and dark, volume and tactility. She combines the stable with the fragile as she works sculpturally in the strong black stoneware clay and the white capricious porcelain. Lisa has previously exhibited in the

USA, the Middle East, UK and Sweden and is now conducting experiments with porcelain and fiber glass. Spazio Nobile is representing Lisa Hellrup since 2022.

Amy Hilton (UK)
Artist

Amy Hilton received her degree in literature from the University of London's Goldsmiths College. In January 2008, she settled in the French Alps, where she reconnected with Nature. Her artistic aspirations developed over the seasons spent among the valleys and mountaintops. Today, she splits her time between Paris and Burgundy. The conjunction of 'the parts and the whole' is a concept that has accompanied the artist along her academic and very personal work. She uses a variety of subjects and media to question the notions of totality and fragmentation, to try to open up being and phenomena, which far from existing only independently and distinctly, according to her, find their sense in their relationship, and even more in their relationship to Nature. This "deep ecology", to use the artist's own words, highlights the power of physiological and mythical links and cycles. Amy Hilton has a story she likes to tell in order to illustrate the inspiration that animates her work: she talks about her discovery, on an isolated beach, of a stone broken into two separate parts.

Two distinct parts; two parts that fit perfectly together. The sharpness of the stone's crack does not prevent us from thinking of it as a coherent and unique form. Spazio Nobile organised Amy Hilton's first solo exhibition, "*Dreamstones*", for the Art on Paper show at BOZAR Brussels, in 2018, and "In Between" during the Brussels Drawing Week in 2018. She was also Guest Editor of *TLmag* on the theme of "*Precious: A Geology of Being*" in 2020. Spazio Nobile has represented Amy Hilton since 2018, and organised her first solo show *Subtle Energy* this year at the gallery.

Katherine Huskie (UK)

Artist, Glassblower

Katherine Huskie has been working with glass for over 10 years. Huskie started experimenting with glass at college and subsequently went to the University of Sunderland where she studied for a BA (Hons) in Glass and Ceramics. Huskie specialised in blown glass early on and since then it has become her passion. Glass blowing has taken Huskie all over the world including a year based in Australia where she worked with numerous different glass makers to expand and broaden her knowledge. The experience provided Huskie with the passion and determination to push her own glass designs. On returning to the UK she set up Devereux & Huskie Glassworks with James Devereux. They specialise in creating glass for designers and artists from the UK and overseas. Huskie has always been interested in pattern whether it is within nature, textiles or geometry. She is always searching for

new influences and how she can include the patterns in hot glass. Huskie was named Wimbledon Championship Artist 2018 alongside Nancy Sutcliffe. They collaborated to create 2 large scale glass works that are on display in the Clubhouse. In 2020 Huskie became a QEST scholar, she received a grant to allow her to continue learning the craft of Neon. Katherine Huskie is represented by Spazio Nobile Gallery since 2020. Huskie's work has a strong identity with form and pattern, whether it is technique or ascetic driven. Katherine Huskie is always searching for new influences and how she can incorporate the inspiration within hot glass. Huskie has travelled with her glass spending a year working in Australia learning new techniques and gathering experiences and ideas. Huskie's work is currently on view at the gallery and is part of part of The International Exhibition of Glass Kanazawa 2022 which started end October at Shinoki Cultural Complex, Ishikawa Prefecture, Japan. Katherine Huskie is represented by Spazio Nobile since 2019.

Laura Laine (FI)
Glass Blower

Laura Laine (born 1983) is a Helsinki based visual artist and illustrator with her own distinct and recognizable style. She has been working with glass since 2013 in Finland, Holland and Czech Republic, and has had her glass sculptures and drawings exhibited in Dubai, Tokyo, New York, Holland, London, Los Angeles and Helsinki, among other locations. In her illustration work, she is particularly known for her surrealistic hand-drawn female figures. Laine's CV lists a great deal of work for international magazines and companies such as Vogue Japan, Vogue Italy, Vogue Germany, Givenchy, Elle, The New York Times, The Guardian, Harvey Nichols and Pantene. She's also collaborating frequently with Nick Knight's SHOWstudio. She has received multiple awards for her work.

Silvano Magnone (IT)

Photographer

Hailing originally from Veroli, a small village in the central mountains of Italy, he moved between Rome, Naples and Bologna, before leaving Italy for Brussels in 2008. Graduating from the National Film Academy of Bologna (Italy) in 2005, Silvano Magnone has participated in many multidisciplinary projects, crossing the boundaries of cinema, documentary, theatre, music and photography. As co-founder of the Teatro Ygramul in Rome with the anthropological theatre research group Ygramul LeMilleMolte, he acted as videographer, making several short and long films as well as a documentary shot between Italy and Malawi. In 2004, he collaborated with the “Gruppo Amatoriale” as a cameraman and editor for several feature films including “The Variation of Mr. Quodlibet”, which was selected for the 2006 Turin Film Festival. For Manauana, a collaborative photography and video-installation project with Anja Kowalski and Alassane Doulougou, he left Italy for Ouagadougou, Burkina Faso in 2007. Upon his return to Europe, the project ended with a residency in Brussels,

where he has lived and worked ever since. While in Brussels, he met photography professor Mirjam Devriendt, enabling him to deepen his knowledge of silver photography and to work in a dark room. She encourages him to persevere in his research into old photographic techniques. In his studio in the Sablon arts district, he carries out his research on alternative photographic processes, mainly working with collodion, historical printing techniques and modern instant photography (Polaroid). His main interests are portraiture and landscape, which he conceives as a journey through time and space in his studio or on his walks, photographing outdoors and magnifying the beauty of the forest. Spazio Nobile has represented Silvano Magnone since 2017.

Liu Chien-Kuang (TW)

Artist, Glass blower

Liu Chien-Kuang born 1988 in Kaohsiung, Taiwan. As a glass designer and maker, he has been greatly influenced by many different cultures and glass-making techniques today. Since he graduated from the National Taiwan University of Education Art and Design, he had been to Japan, Denmark, Sweden, and China, to cooperate with talented glass artists and studios. His goal is to explore a new phase of glass-making, by combining old techniques with new knowledge. Also, he challenges to create novel expressions of the glass itself. Liu Chien-Kuang decided to become an independent Artist during studying at the Royal Danish Academy of Fine Arts, Bornholm design school. During his time of study in Denmark, he was interested in traditional glass-making knowledge and use them with his own cultural experience in his sculpture. He starts to focus on using material glass to create objects to reflect his

cultural background such as paper and wood, two materials that have been a part of his life since his childhood. He found the harmony to combine wood structures with blown glass objects. Liu Chien Kuang also did his practice in master's program at Konstfack, Stockholm. He strengthens his work with material culture and post-colonial theory and tries to question the position of the museum, audience, and artists in the modern society. He wins the Swedish Freemasonry art and culture scholarship after graduating from Konstfack. Currently, Liu Chien-Kuang is based in Gustavsberg, Sweden continuing his practice and experiencing Swedish culture. He likes to study historical museum glass collections to learn the forgotten technique and untold stories and reinvent his story through his material universe.

By combining both the handmade bamboo bending process to the natural lacquer technique, the Japanese designer Kuramoto has conceived a new kind of furniture typology. Employing bamboo bending, which is one of the highest quality technique in Taiwan, Kuramoto tailors a new kind of seating. His elegant and refined chair is also simplified in terms of bamboo weaving and refresh the traditional look of the Asian furniture style. It reinforces the aesthetics and sustainability of the chair and introduces a sense of tactility and comfort. He has used 2 meters long bamboo pieces that are bent and assembled.

Isaac Monté (NL) Designer

Isaac Monté has a fascination for unusual materials and an urge to master and manipulate these materials. He is a Belgian designer based in Rotterdam, The Netherlands. Isaac studied at art academies in Belgium, The Netherlands and Norway. His interest in product design developed at Willem de Kooning Academy in Rotterdam, where he graduated as product designer in 2013. The work of Isaac Monté has been shown in a variety of galleries and exhibitions in Belgium, The Netherlands, Italy and Germany. Isaac is lecturing and leading workshops in various institutions, from the industry (IKEA) to art academies. Monté was awarded The Threshold Price as most talented graduate in 2013, with his project "Filter Factory". In 2014 he was awarded the Henri Winkelman Award for young creative entrepreneurs in Rotterdam. In 2015 he was announced as one of the recipients of the Bio Art and Design Awards. This award gave him the opportunity to design "The Art of Deception" in collaboration with Toby Kiers, Professor in Evolutionary Biology at the Free University in Amsterdam. Spazio Nobile represents Isaac Monté since 2019.

The Crystal series is the result of research into stalagmites, one of the greatest wonders of nature. The growing process of the objects can be seen as a metaphor for time. Each object is unique in shape, colour and texture, due to the organic development of the object. The objects are the result of the natural crystallization of minerals and the influence of the designer on the formation process. This process can take up to several weeks to obtain the perfect shape, interesting colour combinations and dimensions of crystals.

Åsa Jungnelius (SE)

Artist

Born in 1975, Åsa Jungnelius lives and works in Stockholm and Månsamåla, Sweden. She has been exhibiting regularly in Sweden and internationally since the beginning of 2000 and is engaged in numerous public commissions such as the new public subway station Hagastaden in Stockholm, opening in 2026. Jungnelius' breakthrough was with her early works in glass and she has since held the position as one of Sweden's leading artists within the field. Her works are represented in the collection of Moderna Museet, Stockholm, The Swedish National Gallery to name a few as well as several prominent private collections around the world. Jungnelius' artistic practice entails a material exploration shifting between the monumental and the social and psychologically constructed settings. Through the physicality of the object she inquires how identities and bodily desires are formed and expressed. Her interest in body and matter is centered around issues concerning the constant re-negotiation of these two entities throughout human history. Spazio Nobile exhibited Åsa Jungnelius's glass works on Collectible, NOMAD Capri and PAD London and is representing her since 2022.

Päivi Rintaniemi (FI)

Artist, Ceramist

Päivi Rintaniemi graduated with a Master of Arts from the Aalto University in Helsinki, Finland. The varied art disciplines taught at the university enabled her to develop solid professional skills in both design and sculpture. After her studies, Rintaniemi concentrated mainly on designing and manufacturing everyday objects. She shows her Amfora creations at major international design shows. Sculpture has always been an important counterbalance for her design work. Rintaniemi's starting points for structuring her works of art are shape and dimension. Her pieces are characterised by her way of working the clay, which is also often a significant factor in the nature and narrative of her sculptures. Over the years, colour has been replaced by structured surfaces and earthy tones. Rintaniemi's artistic work is meditative, with an interaction between the material and the themes. Through her works, Rintaniemi strives to unveil her relationship with nature, and to let her audience appreciate the uniqueness and miracles of life. Päivi Rintaniemi's work has been recognised both nationally and internationally.

She received the Finnish designer award in 2008, and first prize at the International Competition of Contemporary Ceramic Art in Faenza, Italy, in 2013. She has participated in many art shows in Finland and abroad, and her works are found in Finnish national collections and museums, as well as in private collections. Spazio Nobile showed her work throughout the Finnish season "*Keep Your Garden Alive*" in 2019, and since then has represented her at art and design shows. Spazio Nobile represents Päivi Rintaniemi since 2020.

pieces of public art, including painted murals on tile for Lisbon's Alvalade subway station, and ceramic panels for Japan's Sakai Cultural Centre gardens and the João de Deus School in the Azores Islands. She created 12 large fantastical pieces in 2017 for the gardens of the Fine Arts museum, while exhibiting her work that same year at the Museum of the Orient in Lisbon. Spazio Nobile has represented Bela Silva since 2017 and has dedicated her several exhibitions at the gallery and at international fairs worldwide, including the solo show *Despierta Corazón Dormido* in 2020 coupled with the release of her artist book, *Codex Mexico*. In 2021, Spazio Nobile launched three jewelry collections with the artist: "Mon Amour, Mexico", "Petalouda" with high-end Berlin-based fashion brand Rianna + Nina and "Four Seasons", wall sculpture jewelry to hang on the wall as 'ex-votos'. She is part with Spazio Nobile of *Next of Europe*, a selection of European "Living Treasures" curated by Jean Blanchaert & Stefano Boeri at Homo Faber, Fondazione Giorgio Cini, Venice, Italy in spring 2022. The gallery inaugurated a showcase with Bela Silva in Le Sablon Art District, in front of Les Minimes Baroque Church, which is open twice a year during B.A.S. (Brussels Art Square) in Brussels, in March and September. The gallery presented in 2022 the Duo Exhibition "*Tree of Life*" with the Belgian textile artist Vera Vermeersch. Bela Silva is represented by Spazio Nobile since 2017.

Piet Stockmans (BE)

Artist, Ceramist

Born in Leopoldsborg (Belgium) in 1940, Piet Stockmans this year celebrates the 30th anniversary of his studio. Living on the site of Genk's C-Mine, his career fluctuates between art, the applied arts and industrial design. For nearly 30 years, he taught product design at KHLim in Genk and the Design Academy Eindhoven, and collaborated with industry – notably 25 years with Royal Mosa. New ideas and experiments continue to nourish his work as an artist-ceramicist, ranging from unique or multiple pieces of applied art, to integrations of his porcelain works, to architecture. Cultural ambassador for Flanders in 1995, winner of the Henry Van de Velde Career Award (Flanders Design) in 1998, his works have been included in major exhibitions (solo or group) and have been the subject of memorable installations. Stockmans has seen his creations take their place in the largest Belgian and international collections: PMMK Oostende, Designmuseum Gent, Stedelijk Museum Amsterdam, MAD New York, Met New York, Mint Museum of Craft and Design, Musée national / Cité de la Céramique

de Sèvres, V&A London, etc. He has also led many workshops and conferences in major art and design schools, and has participated in important biennials of ceramics. Spazio Nobile represents Stockmans since 2017. “Piet Stockmans has view of the matter in his wall installation and “Example of A Landscape” on view at the gallery. He has conducted his whole career at the edge. Among his most recognizable compositions feature numerous porcelain vessels and imperfect fragments, the lips of each marked out in a wash of blue, so called “Stockmansblauw”. Despite their outward serenity, these installations can also be understood as energy fields, welling up against their own limits. The individual variations of each painterly edge suggest a barely controlled tide, a brimming chaos beneath. Over the course of his six decades in the medium, Stockmans has pursued the collision between order and turbulence, strength and fragility, following that dialectical instinct wherever it leads him. In his hands, ceramic seems not so much a terrestrial art form as an oceanic or celestial one: a domain of infinite amplitude, containing forces beyond our reckoning.” Extract by Glenn Adamson for TLmag, 2020.

Ann Beate Tempelhaug (NO)

Artist, Ceramist

Ann Beate Tempelhaug was born in Mosjøen, in northern Norway. Educated in the Arts and Crafts at the University of Bergen. Her work is collected by the National museum Oslo, and the Art museums in Bergen, Trondheim and Kristiansand. Among her recent solo exhibitions are KRAFT Gallery Bergen, Bo muldsfabriken Arendal, Agder Art Center and Arteriet Gallery in Kristiansand. Among the recent group exhibitions are the Art Fairs Collective New York and Collect London. Awarded commissions at the Universities of Kristiansand and Bergen. She has received several national grants, most recently the National Art Grant for 5 years. "As the Danish artist Per Kirkeby once said: "Landscapes are always about beauty and death." By taking the landscape as inspiration, my work connects to my own life and my memories," she states. Taking things one day at a time, Norwegian ceramic artist Ann Beate Tempelhaug has been creating large scale ceramic objects for over thirty years. Her freely shaped and sculpted ceramic objects are painted completely

by hand, on both their surface and borders, a testament to her curiosity and dedication to finding beauty in everyday colours and shapes. In her creative process, Tempelhaug proposes new ways of understanding how even the smallest transient moments can affect our larger context. The gallery will present her first Solo Show «Nord» in September 2023. Spazio Nobile represents Ann Beate Tempelhaug since 2020.

Cheng Tsung Feng (FR)
Artist

Cheng Tsung Feng (born 1987) is a Taiwanese young artist. With an old soul in his body, he is fascinated by exploring the wisdom condensed out of time hidden in traditional utensils. He is reluctant to let go of these intangible assets along with traditional utensils. Thus, he inherits them by design and learns to create utensils from their tradition. He applied handcrafted methods from traditional artifacts into large-scale installation arts and sculptures, making the brilliant ancient wisdom which hidden in the objects can be represent at very different scales and functions. Rebirth is the way he preserves precious traditional culture as an artist. He has been invited by Hermes, Aesop, Nike, Loewe, The Balvenie, Apple, The Ritz-Carlton, Kvadrat, Eslite and other international brands to create commissioned artworks & projects.

Jacqueline Surdell (USA)

Artist

Jacqueline Surdell was born and raised in Chicago, IL. She received her MFA in Fibre and Material Studies from the School of the Art Institute of Chicago in 2017. The City's history of industrialism, labour, and Midwest grit plays a significant role in her tridimensional work. Surdell's Polish grandfather worked in the steel mills in Hegewisch while her Dutch grandmother was a landscape painter. Those close familial memories influence Surdell's complex terrain between art-making, body, sanctuary, and spirit. From childhood through college, Surdell was a competitive athlete. She approaches her studio practice with a disciplined resolve forged in the intense, repetitive, realm of competitive sports. Her years as an athlete primed her interest in repetitive, laborious, craft-based practices. Building her wall sculptures demands full body action as the body becomes a weaving shuttle and the hand a brushstroke. Although her material is fibre, her approach is painterly. She manipulates her medium with knotted layers, reducing the material to open the structure, and draping to

create volume and texture. Surdell combines the meticulous precision of craft with the unbridled spontaneity of contemporary painting. She reimagines the woven canvas as a space of undulation and growth. As the expanded histories of painting materialize in her work as content, simultaneously, swollen tendrils and textures of bound rope deny illusions of the classically painted picture plane. The works actively bridge the division between painting and sculpture. In this way, her work calls into association other binary categorizations such as rigid and collapsed, construction techniques coded as masculine or feminine, and ontological spaces between body and sculpture. Her energetic and materially grounded practice brings to attention the tools, environments, and actions that contain and display performances of labour, history, and power. Jacqueline Surdell is represented by Spazio Nobile since 2020.

Kiki van Eijk (NL)

Designer

Kiki van Eijk grew up in the Netherlands where she spent her youth immersed in nature daydreaming and drawing. She is now one of the most accomplished names in the world of Dutch design. Her interest in product design developed at the Design Academy Eindhoven where she met her future partner, designer Joost van Bleiswijk. Her wide range of work extends from installations to furniture, from lighting to textiles, ceramics or glassware. Her independent sculptural work has been presented in museums, galleries and fairs worldwide, including Basel, London, Paris, Milan, New York, Tokyo and Rome. Inspired by the smallest details of the everyday and by the forms of nature, Kiki's world is whimsical and colorful, lyrical and personal, yet refined by a rigorous attention to the process and skillful craftsmanship. Regardless of the scale of the work, the handmade and human touch remains at the heart of her practice and reinforces an intuitive and forward-thinking approach to design in the 21st century. Her collaborations include brands as Hermès, Google, Saint- Louis, Cor Unum,

Bisazza, Häagen-Dazs, Serax, Bernhardt Design and Nodus. In recent years she has collaborated with companies and institutions like Coachella, Studio Edelkoort Paris, Audax Textile Museum, Zuiderzee Museum, Noord Brabants Museum, Design Academy Eindhoven, Venice Projects, Rijksmuseum, Centraal Museum Utrecht and private collectors. Spazio Nobile presented from May 18th to September 4th, Kiki van Eijk & Joost van Bleiswijk's Duo Show « *Serendipity* ». The gallery represents Kiki van Eijk since 2021.

Joost van Bleiswijk (NL) Designer

His work references iconic designs such as grandfather clocks, high-backed chairs, chess sets, and cupboards; bringing these designs into a contemporary setting has marked Joost's work throughout his career. A genuine fascination for the construction of the object – often revealed in the final outcome – is the starting point of his process. The workshop is where Joost engages with the experience of designing as an intensely physical act. The creative process unfolds in a quite instinctive and gestural way. From his early famous No Glue No Screw collection, to the latest Mecchanic and Protopunk series, Joost has always used bold shapes and strong lines to create new daring designs, defying usefulness and striving for audacious creativity. His collaborations include brands like MOOOI, Bernhardt Design, ICE Carpets, Secondome and Ahrend. In recent years he has designed for collectors, companies and institutions such as The Rijksmuseum, Design Academy Eindhoven, Venice Projects, Zuiderzee Museum, Noord Brabants Museum. He has exhibited in private galleries and museums around

the world including Basel, London, Paris, Milan, Venice, New York, Tokyo, Moscow and Holon. Spazio Nobile presented from May 18th to September 4th, Kiki van Eijk & Joost van Bleiswijk's Duo Show *Serendipity*. The gallery represents Joost van Bleiswijk since 2021.

Frederik Vercruyse (BE)

Photographer

Originally from West-Flanders, Antwerp-based Frederik Vercruyse has imposed his photographic eye for more than a decade, cultivating a taste for architecture. The very good quality of his documentary and artistic images led to international renown. His minimalist, ethereal style and the graphic dimension of his photographs have allowed him to build a successful career as a photographer, whether for the media or in the design, fashion and luxury sectors (Hermès, Delvaux, B&B Italia, Valentino, Zara Home, etc). His first monograph, *Index 2006-2016*, was out published by Luster, focusing on his work with architects, designers, fashion and lifestyle brands and on his artistic vision. He is currently represented by the agency Initials LA in Benelux, and by Quadriga worldwide. Frederik Vercruyse is represented by Spazio Nobile Gallery since 2017. *Windows* is his first solo show with the gallery. His art photographs Atlantic Series were exclusively created for Spazio Nobile and featured in the duo show, *Season VI- Blauw, Ceci n'est pas*

une couleur, in close dialogue with porcelain artist Piet Stockmans, on Art Brussels, Collectible and have been permanently exhibited at Spazio Nobile Studiolo until now.

Vera Vermeersch (BE)
Textile Artist

Vera Vermeersch, tapestry weaver and artist, trained as an art historian and as tapestry restorer at IRPA (Royal Institute for Cultural Heritage), was one of the founders of the Oudenaardse Huis Lalaing, which restored old tapestries in the mid-1980s. In 1989 she opened her own studio in Ghent, Belgium, specializing in contemporary tufted tapestries for floors and walls. Vermeersch creates her own designs, but also collaborated with some other local and international artists. For example, she has transposed works by Maarten van Severen, Tjok Dessauvage, Roger Raveel, Fred Bervoets, Johan Tahon, Volker Albus, Pjeroo Roobjee and Sofie Lachaert into tufted tapestries. She also collaborated with members of her artistic family, including her sculptor father José Vermeersch, her brother Rik Vermeersch and her cousin, painter Pieter Vermeersch. At present, she exclusively conceives and makes

her own creations inspired by her travels, Italian landscapes, and details from antique tapestries and old masters. This artistic approach always implies a critical, meticulous and layered reading, interpreting and re-interpreting of the given subject to sublimate it in a composition of which she holds the secrets, the color palette, the interweaving of threads and the genius of the material. She is a master at translating the virtuosity and poetry of the original design into tapestries. Her new lyrical and intimist tapestries around *Tree of Life* inaugurate a new body of hand-tufted works, inspired by the day and night shadows and lights that she observes and that appear in the landscape of the Piedmont Valley that surrounds her countryside house, *La Palude*. The gallery presented in 2022 the Duo Exhibition «*Tree of Life*» with the Portuguese textile artist Bela Silva. Vera Vermeersch is represented by Spazio Nobile since 2021.

Fabian von Spreckelsen (DE)

Sculptor & Artist-Designer

A graduate of the Academie Beeldende Kunsten in Maastricht, the Netherlands, German-born artist Fabian von Spreckelsen is now based in the Netherlands. He cultivates a deep fascination for nature, passed down from his biologist father, who guided Fabian on the discovery of the delightful world of living organisms. This relationship and interaction between a constructed environment and unspoiled nature has steered his artistic instincts. Fabian von Spreckelsen is captivated by the links between humans and the natural elements surrounding them, and in his sculptural designs, he continuously interprets nature as a powerful force, requiring respect more than protection. The resulting strong and radical artwork draws inspiration from flora and fauna in their abstract geometries, with both strength and beauty in their simplest, sometimes abstract forms. The lines of his

work are clear-cut, producing visual effects that are simultaneously minimal and maximal. With his sculptural approach, he creates unique and bespoke pieces with a specific personality; the variety of his works reflects the diversity of nature and its connection with profound human values. He aims for a balance between arithmetical design, craftwork and artistic freedom, while always working with a respect for the environment and harmony with his surroundings. His recent monumental sculpture project, "Freddy", in Corten steel, takes him in a new, more conceptual direction, that he also translates into his new collection of seven cabinets that combine weathered iron and tanned leather, reflecting the stages of his life in a direct extension of the artwork "*The Soul Portrait*" which was show at the first edition of "*Le Sacre de la Matière*". Spazio Nobile has represented Fabian von Spreckelsen since 2017. His Solo Exhibition *Soul Memories* is on display until March 1st at Spazio Nobile Studiolo.

Leather Cabinets

Functional collectible furniture

Combining two organic materials, weathered iron and tanned leather, Fabian von Spreckelsen presents a new collection of seven cabinets, each symbolising an important stage in his existence. The ritual lies in the simple gesture of lifting the leather to reveal the interior of the furniture-sculpture. *“In life, we reach different stages; periods punctuated by experiences and discoveries. The cabinets refer to the objects of this daily, emotional and spiritual experience. They are made to connect these personal stories: the significant books, the cocktail bar, the little secrets, the keys to independence, the comfort and reassurance of loved ones, the treasures and memories, the personal diary, etc.”* These evolving, bespoke *“personal cupboards”* take the form of their object.

Quentin Vuong (FR)

Designer

Quentin Vuong is a designer-scenographer whose aesthetic approach seeks to compose with matter, texture and form in order to create emotions. He uses pure, raw and even primitive forms, which he interprets and isolates thanks to a clever play on photographic composition and drawing. His sources of inspiration are ancient architecture, medieval fortifications or Venetian Gothic and the natural landscapes that surround them. From his experience acquired at the design department of La Fabrica in Treviso, he has retained the appeal of innovative scenographies dedicated to events marking the news of luxury brands, such as Veuve Clicquot during the Salone del Mobile in 2016. As of 2018, he puts his creative flair at the service of the production agency Back of the House. Together they conceive meticulous and radical design sets for Jil Sander, Oamc, Courrèges, Tom Brown and Acne studios. His experimental quest between noble materials and artisanal techniques is always at the center of his creations. Quentin Vuong produces delicate objects and custom-

made furniture for his clients such as SĀR Studio, Please do not Enter, Ars Fabricandi or Haviland. Today, it is in his studio at Villa Belleville that he indulges himself the most by designing unique pieces, mirrors, armchairs or light reflectors. He infuses his design sensibility, his research on the expression of time in space through objects and his knowledge of materials. Quentin Vuong works and composes on a variety of projects, from scenography to fashion shows, fashion boutiques, furniture and gallery pieces. He is developing a new collection of mirrors in collaboration with Barbini Specchi Veneziani in Murano exclusively for Spazio Nobile. The gallery represents him since 2021 and will present his first Solo Show in 2024.

Philipp Weber (DE)

Designer

German creative Philipp Weber's holistic methodology melds his keen craft-led sensibility and affinity for humanism. Unaffected by the saturated trends that drive the design industry, the young designer delves deep into different subject matter. He approaches each topic from a comprehensive set of vantage points: the history and analysis of established manufacturing processes to the integration of seemingly disparate yet surprisingly appropriate associations. Graduated of Design Academy Eindhoven and University of Arts Berlin, he anchors and translates his unhurried, discursive explorations into tangible concepts and functional forms. These accessible applications push beyond the previously accepted limitations of age-old techniques and in turn, suggest ways in which to ensure their survival. It is no wonder that his chosen mediums tend to be glass, coal byproduct, cork, and textile. Though the designer frames his projects as thought-provoking referential, experimental, and expressive statement pieces, the new material properties they introduce have the most impact.

As the co-founder and creative director of Analog, a commercial venture developed through Berlin Glassworks, Weber has been able to put this unique praxis-based approach to good use. His interest in subverting traditional modes of production and research, now also incorporates a desire to explore new unconventional business models. Weber's first exhibition with Spazio Nobile was in 2017 as part of *Season IV-Crystallized*, with his experimental projects *A Strange Symphony* and *From Below* which is currently exhibited at CID-Hornu, Belgium, within the exhibition *At the Coalface, Design in a post-carbon age*, until 8 January 2023. Spazio Nobile represents Philipp Weber since 2020.

Filigree

Weber presents his vision of glass and lighting, launching a new bespoke lighting collection for the gallery, *Filigree*, with grotesque black and refined white canes. The filigrana style originated on the island of Murano in the mid-16th century and spread rapidly to other parts of Europe where the *façon de Venise* glass was produced. This project falls perfectly in line with Spazio Nobile's long-running interest in glass and its project, *Glass is Tomorrow*.

By opening Spazio Nobile in 2016 in the very lively and cosmopolitan neighbourhood of Place Brugmann in Brussels, art historians Lise Coirier and Gian Giuseppe Simeone have united their passions for design and art history, initiating an erudite dialogue between contemporary applied arts, design and photography. With no boundaries between disciplines, the visual arts interact with the fine arts. Commissioning a collection of unique pieces, limited editions and installations both experimental and artistic, with a particular sensitivity to everything related to nature and minerality, each year the gallery organises five exhibitions and several events in art and heritage venues (Maison Louis Carré, Yvelines, France, arch. Alvar Aalto; Ancienne Nonciature, Grand Sablon; Lempertz (former galerie Leroy Frères), Brussels, etc), including *Spazio Nobile At Home* in their private villa in Tervuren. Spazio Nobile also takes part in Belgian and international fairs such as Art Brussels, Luxembourg Art Week, Art on Paper, Collectible Design Fair, Nomad Circle, PAD Paris and PAD London, Design Miami/Basel, Unique Design Shanghai, etc. The gallery represents around 30 emerging and renowned artists and designers on an international scale, while promoting high-end craftsmanship and the cultural dialogue between East and West. Spazio Nobile also curates “*TLmag. True Living of Art & Design*”, established by Lise Coirier in 2008; through this bi-annual art and design magazine, available in print and online, the gallery shares its selection and its artistic and cultural commitment to collectible art and design. Spazio Nobile has received the *Homo Faber* label of excellence, and continues exploring its *Glass is Tomorrow* international project. In 2020, Spazio Nobile Gallery opened *Spazio Nobile Studiolo*, a permanent exhibition space, across the street of the main gallery which is located at the ‘bel étage’ of a 1920s house.
