Taille douce

Éva Garcia, Solo Show

For her second solo exhibition, French artist Éva Garcia is presenting a body of new work based on her two practices: engraving, in dialogue and resonance with sculpture, as a shared vision of the state of the world. Weight, density and texture are omnipresent in a tactility that is both visual and haptic. The strength and fragility of elements such as the human body or rock enter into tension with the eye, provoking a profound emotion that is both total and fragmented.
